Dear Shareholder,

EPR enters its 10th year of operation demonstrating those qualities worthy of your trust and investment. The year 2006 was consistent in delivery of increased Company and shareholder returns and unprecedented in the scale of the latter with a total shareholder return of 52%.

But 2006 represents more than the achievement of record-setting financial results. It was also a year during which our research and development activities produced real estate investment opportunities for other destination entertainment and specialty properties that meet our rigorous investment criteria and promise to be as productive as the megaplex theater property that has been at the core of our Company's success.

### **Double-Digit Growth Performance**

For 2006, EPR again achieved significant growth in all essential performance measures. While investment of \$163 million for the year increased our portfolio 11%, our revenues grew 19% and our net income available to common shareholders grew 22%. Importantly, our industry's measure of financial performance, Funds From Operations, grew 19%. On a per-diluted-share basis, net income was up 17% and FFO grew 14%, to \$3.79 per share.

### **Balance Sheet Improvements**

While asset growth of greater than 11% and even greater increases in shareholder metrics were achieved, total debt was reduced by almost \$40 million, and debt as a percentage of our total capital structure fell from 51% to 43%, as measured by book value.

As the year closed, we successfully completed our third preferred stock sale, the first of a convertible nature. We raised \$131 million of equity based on a coupon of 5.75% and an initial conversion price of \$71.34.

### **Core Industry Advances**

Our core tenant industry, the film exhibition or cinema industry, also again demonstrated its reliable positive performance during 2006. Total box office receipts were up across North America by approximately 5%, with attendance increasing 1.5%. The 10-year, nearly 4.5% compound annual growth of this retail category shows promise of significant near-term enhancement, as well.

With the major film production studios and the exhibition industry trade association having reached agreement in the fall of 2006 on digital cinema implementation issues and processes in the Digital Cinema Initiatives, digital presentation has achieved a penetration level of about 10% of industry screens. Its promise of improved presentation and a catalyst for greater Hollywood creativity can generate a new cycle of increased consumer enthusiasm and patronage for traditional motion pictures. They also can increase the appeal of our properties as destination venues through use of the technology to deliver different kinds of content, such as sporting events, concerts, theatrical performances, political rallies and other unique public events.

### **Expanding Our Productive Capacity**

As discussed in this letter last year, EPR is on a path to not only solidify and harvest its traditional dominant market position, but also leverage this success in other comparable categories with the same disciplined investment program.

The principles that have guided us in our success of almost a decade are being applied to expose and develop new areas of investment for EPR. Our continued enthusiastic investment in cinemas and theater-anchored entertainment retail centers, our new investments in ski properties, a recent investment in a premium Napa Valley, California, vineyard and our exploration of other potential property types are all guided by five key principles. The principles are hallmarks of investment opportunities in industries and properties that reliably demonstrate consumer preference. We expect these opportunities to be as rewarding as our pioneering work in cinema investment and development.

Our real estate investment decisions are driven by five criteria that we increasingly refer to as Five Star Properties—a term that aptly sums up the investment discipline central to our repeated success. Specifically, they encompass the following:

**Inflection Opportunity:** a generational renewal or restructuring change in an industry's properties that creates an opportunity for insightful capital.

**Enduring Value:** investments in real estate devoted to and improving upon long-lived activities.

**Excellent Execution:** premium locations and investment executions that lead to market-dominant performance and create credit beyond the particular tenant.

**Attractive Economics:** accretive initial returns along with growth in yield over the life of our investments in categories of meaningful size.

**Advantageous Position:** sustainable competitive advantages based on knowledge, relationships or access to key investment elements.

The Five Star Properties principles are proven and provide us the disciplined approach that allows us to expand our productive capacity and extend the outstanding track record EPR has provided for nine years. This underwriting and investing discipline blends innovation with tradition, excellence and yield, all combined with an orientation toward developing sustainable competitive advantages that ensure the health, durability and contribution of our efforts.

## **Conclusion**

I invite you to read more about the application of our Five Star Properties approach to this record-setting year here on the pages of our 2006 Annual Report. As you review this report's contents, I hope and trust you agree that EPR continues to deliver the excellent results that you have come to expect and that merit your investment.

## FORWARD LOOKING STATEMENTS

Certain statements contained or incorporated by reference herein constitute forward-looking statements as such term is defined in Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The forward-looking statements may refer to financial condition, results of operations, plans, objectives, future financial performance and business of the Company. Forward-looking statements are not guarantees of performance. They involve risks, uncertainties and assumptions. Our future results, financial condition and business may differ materially from those expressed in these forward-looking statements. You can find many of these statements by looking for words such as "approximates," "believes," "expects," "anticipates," "estimates," "intends," "plans" "would," "may" or other similar expressions in this Annual Report on Form 10-K. In addition, references to our budgeted amounts are forward looking statements. These forward-looking statements represent our intentions, plans, expectations and beliefs and are subject to numerous assumptions, risks and uncertainties. Many of the factors that will determine these items are beyond our ability to control or predict. For further discussion of these factors see "Item 1A. Risk Factors" in this Annual Report on Form 10-K.

For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on our forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K or the date of any document incorporated by reference. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We do not undertake any obligation to release publicly any revisions to our forward-looking statements to reflect events or circumstances after the date of this Annual Report on Form 10-K.

## **PART I**

### **Item 1. Business**

#### **General**

Entertainment Properties Trust ("we," "us," "EPR" or the "Company") was formed on August 22, 1997 as a Maryland real estate investment trust ("REIT") to capitalize on the opportunities to develop, acquire or finance the emerging class of destination entertainment and entertainment-related properties, including megaplex movie theatre complexes, entertainment retail centers and other destination recreational and specialty properties. We completed an initial public offering of our common shares of beneficial interest ("common shares") on November 18, 1997.

We are a self-administered REIT. As of December 31, 2006, our real estate portfolio was comprised of over \$1.5 billion in assets and consisted of 75 megaplex theatre properties (including three joint venture properties) located in 25 states and Ontario, Canada, two additional theatre properties under development, seven entertainment retail centers (including one joint venture property) located in Westminster, Colorado, New Rochelle, New York, Burbank, California and Ontario, Canada, and other destination recreational and specialty properties. We also own land parcels leased to restaurant and retail operators adjacent to several of our theatre properties. As of December 31, 2006, our portfolio of megaplex theatre properties consisted of 6.3 million square feet and was 100% occupied, and our portfolio of retail, restaurant and other properties consisted of 1.5 million square feet and was 95% occupied. The combined portfolio consisted of 7.8 million square feet and was 99% occupied. Our theatre properties are leased to leading theatre operators, including American Multi-Cinema, Inc. ("AMC"), a subsidiary of AMC Entertainment, Inc. ("AMCE"), Muvico Entertainment, LLC ("Muvico"), Regal Entertainment Group ("Regal"), Consolidated Theatres ("Consolidated"), Rave Motion Pictures ("Rave"), AmStar Cinemas, LLC ("AmStar"), Wallace Theatres ("Wallace"), Cobb Theatres ("Cobb"), Southern Theatres ("Southern") and Kerasotes Theatres ("Kerasotes"). At December 31, 2006, approximately 53% of our megaplex theatre properties were leased to AMC.

As of December 31, 2006, our real estate mortgage loan portfolio was comprised of three notes receivable with a total carrying value of \$76.1 million, including related accrued interest receivable. As further described in Note 15 to the consolidated financial statements in this Annual Report on Form 10-K, the largest of these loans is denominated in Canadian dollars and had a carrying value of US \$60.0 million at December 31, 2006, including accrued interest receivable. This mortgage note bears interest at 15%, and has been provided to a partnership for the purpose of developing a 13 level entertainment retail center in downtown Toronto in Ontario, Canada. It is anticipated that the development of this center will be completed in 2008 at a total cost of approximately \$272 million Canadian, and will contain approximately 360,000 square feet of net rentable area (excluding signage). We also have an option to purchase a 50% equity interest in this project.

As further described in Note 2 to the consolidated financial statements included in this Annual Report on Form 10-K, during the year ended December 31, 2006, approximately \$41.4 million, or 21.2% of our total revenue was derived from our four entertainment retail centers in Ontario, Canada and the mortgage note receivable secured by property in Canada described above. The Canadian entertainment retail centers represent approximately \$178.9 million, or 12.8% of our total rental properties at December 31, 2006, and combined with the carrying value of our mortgage note receivable, represent approximately \$238.9 million or 15.2% of our total assets at December 31, 2006.

For a discussion of material property acquisitions during the year ended December 31, 2006, see Item 7 – "Management's Discussion and Analysis of Financial Condition and Results of Operations – Recent Developments."

We aggregate the financial information of all our properties into one reportable segment because the properties have similar economic characteristics and generally provide similar services to similar types and classes of customers.

We believe destination entertainment, entertainment-related, recreational and specialty properties are important sectors of the real estate industry and that, as a result of our focus on properties in these sectors and the industry relationships of our management, we have a competitive advantage in providing capital to operators of these types of properties. Our principal business objective is to be the nation's leading destination entertainment, entertainment-

related, recreation and specialty real estate company by continuing to develop, acquire or finance high-quality properties leased to tenants, generally under long-term triple-net leases that require the tenant to pay substantially all expenses associated with the operation and maintenance of the property.

### **Megaplex Theatres**

A significant portion of our assets consist of megaplex theatres. Megaplex theatres typically have at least 10 screens with stadium-style seating (seating with elevation between rows to provide unobstructed viewing) and are equipped with amenities that significantly enhance the audio and visual experience of the patron. We believe the development of new generation megaplex theatres, including the introduction of digital cinema, has accelerated the obsolescence of many of the previous generation of multiplex movie theatres by setting new standards for moviegoers, who, in our experience, have demonstrated their preference for the more attractive surroundings, wider variety of films, enhanced quality of visual presentation and superior customer service typical of megaplex theatres.

We expect the development of megaplex theatres to continue in the United States and abroad for the foreseeable future. With the development of the stadium style megaplex theatre as the preeminent format for cinema exhibition, the older generation of smaller flat-floor theatres has generally experienced a significant downturn in attendance and performance. As a result of the significant capital commitment involved in building megaplex theatres and the experience and industry relationships of our management, we believe we will continue to have opportunities to provide capital to businesses that seek to develop and operate these properties, but would prefer to lease rather than own the properties. We believe our ability to finance these properties will enable us to continue to grow our asset base (See Item 7 – “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for a discussion of capital requirements necessary for the Company’s continued growth).

### **Entertainment Retail Centers**

We continue to seek opportunities for the development of additional restaurant, retail and other entertainment venues around our existing portfolio and our properties under development. The opportunity to capitalize on the traffic generation of our market-dominant theatres to create entertainment retail centers (“ERC’s”) not only strengthens the execution of the megaplex movie theatre but adds diversity to our tenant and asset base. We have and will continue to evaluate our existing portfolio and construction projects for additional development of retail and entertainment density, and we will also continue to evaluate the purchase or financing of existing ERC’s that have demonstrated strong financial performance and meet our quality standards. The leasing and property management requirements of our ERC’s are generally met through the use of third-party professional service providers.

### **Recreational and Specialty Properties**

The venue replacement cycle in theatrical exhibition represents what we consider an inflection opportunity, a demand for new capital stimulated by a need to upgrade to new technologies and related amenities. We expect other destination retail, recreational and specialty properties to undergo similar transformations stimulated by growth, renewal and/or restructuring. We have begun and expect to continue to pursue acquiring, developing and financing new generations of attractive and successful properties in selected niche markets of out-of-home activity. We believe our ability to invest in these properties will enable us to continue to grow and diversify our asset base.

### **Business Objectives and Strategies**

Our primary business objective is to continue to enhance shareholder value by achieving predictable and increasing Funds From Operations (“FFO”) per Share (See Item 7 – “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Funds From Operations” for a discussion of FFO), through the acquisition, development and financing of high-quality properties leased primarily to entertainment and entertainment-related business operators. We intend to achieve this objective by continuing to execute the Growth Strategies, Operating Strategies and Capitalization Strategies described below:

#### ***Growth Strategies***

As a part of our growth strategy, we will consider developing or acquiring additional megaplex theatre properties, and developing or acquiring single-tenant entertainment, entertainment-related, recreational or specialty properties.

We will also consider developing or acquiring additional ERC's. In lieu of acquisition or development, we may also pursue opportunities to provide mortgage financing for these same property types.

Our investing strategy centers on certain guiding principles:

*Inflection Opportunity*

We look for a new generation of facilities emerging as a result of age, technology, or change in the lifestyle of consumers which create development, renewal or restructuring opportunities requiring significant capital.

*Enduring Value*

We look for real estate that supports activities that are commercially successful and have a reasonable basis for continued and sustainable customer demand in the future. Further, we seek circumstances where the magnitude of change in the new generation of facilities adds substantially to the customer experience.

*Excellent Execution*

We seek attractive locations and best-of-class executions that create market-dominant properties which we believe create a competitive advantage and enhance sustainable customer demand within the category despite a potential change in tenant. We minimize the potential for turnover by seeking quality tenants with a reliable track record of customer service and satisfaction.

*Attractive Economics*

We seek investments that provide accretive returns initially and increasing returns over time with rent escalators and percentage rent features that allow participation in the financial performance of the property. Further, we are interested in investments that provide a depth of opportunity to invest sufficient capital to be meaningful to our total financial results and also provide a diversity by market, geography or tenant operator.

*Advantageous Position*

In combination with the preceding principles, when investing we look for a competitive advantage such as unique knowledge of the category, access to industry information, a preferred tenant relationship, or other relationships that provide access to sites and development projects.

*Operating Strategies*

*Lease Risk Minimization*

To avoid initial lease-up risks and produce a predictable income stream, we typically acquire single-tenant properties that are leased under long-term leases. We believe our willingness to make long-term investments in properties offers our tenants financial flexibility and allows tenants to allocate capital to their core businesses. Although we will continue to emphasize single-tenant properties, we have acquired and may continue to acquire multi-tenant properties we believe add value to our shareholders.

*Lease Structure*

We have structured our property acquisitions and leasing arrangements to achieve a positive spread between our cost of capital and the rentals paid by our tenants. We typically structure leases on a triple-net basis under which the tenants bear the principal portion of the financial and operational responsibility for the properties. During each lease term and any renewal periods, the leases typically provide for periodic increases in rent and/or percentage rent based upon a percentage of the tenant's gross sales over a pre-determined level. In our multi-tenant property leases and some of our theatre leases, we generally require the tenant to pay a common area maintenance (CAM) charge to defray its pro rata share of insurance, taxes and maintenance costs.

*Tenant Relationships*

We intend to continue developing and maintaining long-term working relationships with theatre, restaurant, retail, entertainment, recreation and specialty business operators and developers by providing capital for multiple properties on an international, national or regional basis, thereby enhancing efficiency and value to those operators and to the Company.

### *Portfolio Diversification*

We will endeavor to further diversify our asset base by property type, geographic location and tenant. In pursuing this diversification strategy, we will target theatre, restaurant, retail, recreation and other entertainment-related business operators which management views as leaders in their market segments and which management believes have the financial strength to compete effectively and perform under their leases with the Company. We may also consider the acquisition of other specialty properties if management believes such properties would add value to our shareholders.

### *Development*

We intend to continue developing properties that meet our guiding principles. We generally do not begin development of a single tenant property without a signed lease providing for rental payments during the development period that are commensurate with our level of capital investment. In the case of a multi-tenant development, we generally require a significant amount of the development to be pre-leased prior to construction to minimize lease-up risk. In addition, to minimize overhead costs and to provide the greatest amount of flexibility, we generally outsource construction management to a third party engineering firm.

### *Capitalization Strategies*

#### *Debt and Equity Financing*

We finance the acquisition of properties with a combination of debt and preferred and common equity financing. We expect to maintain a debt to total capitalization ratio (i.e., long-term debt of the Company as a percentage of shareholders' equity plus total liabilities) of between 50% and 55%. However, the timing and size of our equity offerings may cause us to temporarily operate outside of this range.

On January 31, 2006, we amended and restated our secured revolving credit facility to increase the size of the facility to \$200 million from \$150 million, extend its term, improve the pricing and convert from a secured to an unsecured facility. On June 6, 2006, we increased the size of the facility to \$235 million with no other material modifications to the terms and conditions.

The amended facility (referred to in this report as the "unsecured revolving credit facility") carries an interest rate ranging from LIBOR plus 130 to 175 basis points, compared to LIBOR plus 175 to 250 basis points previously paid. The unsecured revolving credit facility has a three year term expiring in 2009 with a one-year extension available at our option.

See Item 7 – "Management's Discussion and Analysis of Financial Condition and Results of Operations – Recent Developments" for other debt and equity transactions during 2006.

### *Joint Ventures*

We will examine and may pursue potential additional joint venture opportunities with institutional investors or developers if the investments to which they relate meet our guiding principles discussed above. We may employ higher leverage in joint ventures.

### *Payment of Regular Distributions*

We have paid and expect to continue to pay quarterly dividend distributions to our common and preferred shareholders. Our Series A cumulative redeemable preferred shares ("Series A preferred shares") have a dividend rate of 9.50%, our Series B cumulative redeemable preferred shares ("Series B preferred shares") have a dividend rate of 7.75% and our Series C cumulative convertible preferred shares ("Series C preferred shares") have a dividend rate of 5.75%. Among the factors the Company's board of trustees ("Board of Trustees") considers in setting the common share distribution rate are the applicable REIT tax rules and regulations that apply to distributions, the Company's results of operations, including FFO per share, and the Company's Cash Available for Distribution (defined as net cash flow available for distribution after payment of operating expenses, debt service, and other obligations). We expect to periodically increase distributions on our common shares as FFO and Cash Available for Distribution increase and as other considerations and factors warrant.

**Competition**

We compete for real estate financing opportunities with other companies that invest in real estate, as well as traditional financial sources such as banks and insurance companies. While we were the first publicly traded REIT formed to specialize in entertainment and entertainment-related properties, other REITs have financed and may continue to seek to finance entertainment properties as new properties are developed or become available for acquisition.

**Employees**

As of December 31, 2006, we had thirteen full time employees.

**Principal Executive Offices**

The Company's principal executive offices are located at 30 W. Pershing Road, Suite 201, Kansas City, Missouri 64108; telephone (816) 472-1700.

**Materials Available on Our Website**

Our internet website address is [www.eprkc.com](http://www.eprkc.com). We make available, free of charge, through our website copies of our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act") as soon as reasonably practicable after we electronically file such material with, or furnish it to the Securities and Exchange Commission (the "Commission" or "SEC"). You may also view our Code of Business Conduct and Ethics, Company Governance Guidelines, Independence Standards for Trustees and the charters of our audit, nominating/company governance and compensation committees on our website. Copies of these documents are also available in print to any shareholder who requests them.

**Item 1A. Risk Factors**

There are many risks and uncertainties that can affect our current or future business, financial performance or share price. Here is a brief description of some of the important factors which could adversely affect our current or future business, operating results, financial condition or share price. This discussion includes a number of forward-looking statements. See "Forward Looking Statements."

**Risks That May Impact Our Financial Condition or Performance*****We depend on leasing space to tenants on economically favorable terms and collecting rent from our tenants, who may not be able to pay***

Our financial results depend significantly on leasing space at our properties to tenants on economically favorable terms. In addition, because a substantial majority of our income comes from renting of real property, our income, funds available to pay indebtedness and funds available for distribution to our shareholders will decrease if a significant number of our tenants cannot pay their rent or if we are not able to maintain our levels of occupancy on favorable terms. If a tenant does not pay its rent, we might not be able to enforce our rights as landlord without delays and might incur substantial legal costs.

If a tenant becomes bankrupt or insolvent, that could diminish or eliminate the income we expect from that tenant's leases. We may not be able to evict a tenant solely because of its bankruptcy. On the other hand, a bankruptcy court might authorize the tenant to terminate its leases with us. If that happens, our claim against the bankrupt tenant for unpaid future rent would be subject to statutory limitations that might be substantially less than the remaining rent owed under the leases. In addition, any claim we have for unpaid past rent would likely not be paid in full and we would also have to take a charge against earnings for any accrued straight-line rent receivable related to the leases.

***We could be adversely affected by a mortgagor's bankruptcy or default***

If a mortgagor becomes bankrupt or insolvent or defaults under its mortgage, that could force us to declare a default and foreclose on the underlying property. There is a risk that the fair value of the property will be less than the carrying value of the property's debt at the time of the foreclosure and we may have to take a charge against earnings. We may experience costs and delays in recovering a property in foreclosure or finding a substitute operator for the property. If the mortgage we hold is subordinated to senior financing secured by the property, our

recovery would be limited to any amount remaining after satisfaction of all amounts due to the holder of the senior financing. We have agreed to subordinate our Canadian mortgage financing to bank construction financing obtained by the borrower.

***Our theatre tenants may be adversely affected by the obsolescence of any older multiplex theatres they own or by any overbuilding of megaplex theatres in their markets***

The development of megaplex movie theatres has rendered many older multiplex theatres obsolete. To the extent our tenants own a substantial number of multiplexes, they have been, or may in the future be, required to take significant charges against their earnings resulting from the impairment of these assets. Megaplex theatre operators have also been and could in the future be adversely affected by any overbuilding of megaplex theatres in their markets and the cost of financing, building and leasing megaplex theatres.

***Operating risks in the entertainment industry may affect the ability of our tenants to perform under their leases***

The ability of our tenants to operate successfully in the entertainment industry and remain current on their lease obligations depends on a number of factors, including the availability and popularity of motion pictures, the performance of those pictures in tenants' markets, the allocation of popular pictures to tenants and the terms on which the pictures are licensed. Neither we nor our tenants control the operations of motion picture distributors. Megaplex theatres represent a greater capital investment, and generate higher rents, than the previous generation of multiplex theatres. For this reason, the ability of our tenants to operate profitably and perform under their leases could be dependent on their ability to generate higher revenues per screen than multiplex theatres typically produce. The success of "out-of-home" entertainment venues such as megaplex theatres, entertainment retail centers and recreational properties also depends on general economic conditions and the willingness of consumers to spend time and money on out-of-home entertainment.

***Real estate is a competitive business***

Our business operates in highly competitive environments. We compete with a large number of real estate property owners and developers, some of which may be willing to accept lower returns on their investments. Principal factors of competition are rent charged, attractiveness of location, the quality of the property and breadth and quality of services provided. Our success depends upon, among other factors, trends of the national and local economies, financial condition and operating results of current and prospective tenants and customers, availability and cost of capital, construction and renovation costs, taxes, governmental regulations, legislation and population trends.

***A single tenant represents a substantial portion of our lease revenues***

Approximately 53% of our megaplex theatre properties are leased to AMC, one of the nation's largest movie exhibition companies. AMCE has guaranteed AMC's performance under substantially all of their leases. We have diversified and expect to continue to diversify our real estate portfolio by entering into lease transactions with a number of other leading operators. Nevertheless, our revenues and our continuing ability to pay shareholder dividends are currently substantially dependent on AMC's performance under its leases and AMCE's performance under its guaranty.

We believe AMC occupies a strong position in the industry and we intend to continue acquiring and leasing back or developing new AMC theatres. However, if for any reason AMC failed to perform under its lease obligations and AMCE did not perform under its guaranty, we could be required to reduce or suspend our shareholder dividends and may not have sufficient funds to support operations until substitute tenants are obtained. If that happened, we cannot predict when or whether we could obtain substitute quality tenants on acceptable terms.

***There are risks inherent in having indebtedness and the use of such indebtedness to fund acquisitions***

We currently utilize debt to fund portions of our operations and acquisitions. In a rising interest rate environment, the cost of our variable rate debt and any new debt or other market rate security or instrument may increase. We have used leverage to acquire properties and expect to continue to do so in the future. Although the use of leverage is common in the real estate industry, our use of debt to acquire properties does expose us to some risks. If a significant number of our tenants fail to make their lease payments and we don't have sufficient cash to pay principal and

interest on the debt, we could default on our debt obligations. A substantial amount of our debt financing is secured by mortgages on our properties. If we fail to meet our mortgage payments, the lenders could declare a default and foreclose on those properties. Our unsecured revolving credit facility has a variable interest rate that also exposes us to the risk of higher interest rates on amounts borrowed under that facility. If the tenants of properties in the borrowing base for our unsecured revolving credit facility default on their lease obligations or the properties otherwise fail to qualify for inclusion in the borrowing base, that could limit the amount we could borrow under the facility.

***A portion of our secured debt has a “hyper-amortization” provision which may require us to refinance the debt or sell the properties securing the debt prior to maturity***

As of December 31, 2006, we had approximately \$93.0 million outstanding under a single secured mortgage loan agreement that contains a “hyper-amortization” feature, in which the principal payment schedule is rapidly accelerated, and our principal payments are substantially increased, if we fail to pay the balance on the anticipated prepayment date of July 11, 2008. We undertook this debt on the assumption that we will be able to refinance the debt prior to these hyper-amortization payments becoming due. If we cannot obtain acceptable refinancing at the appropriate time, the hyper-amortization payments will require substantially all of the revenues from those properties securing the debt to be applied to the debt repayment, which could reduce our common share dividend rate and could adversely affect our financial condition and liquidity.

***We have grown rapidly through acquisitions. We may not be able to maintain this rapid growth and our failure to do so could adversely affect our stock price***

We have experienced rapid growth in recent years. We may not be able to maintain a similar rate of growth in the future or manage our growth effectively. Our failure to do so may have a material adverse effect on our financial condition and results of operations and ability to pay dividends to our shareholders.

***We must obtain new financing in order to grow***

As a REIT, we are required to distribute at least 90% of our taxable net income to shareholders in the form of dividends. This means we are limited in our ability to use internal capital to acquire properties and must continually raise new capital in order to continue to grow and diversify our real estate portfolio. Our ability to raise new capital depends in part on factors beyond our control, including conditions in equity and credit markets, conditions in the industries in which our tenants are engaged and the performance of real estate investment trusts generally. We continually consider and evaluate a variety of potential transactions to raise additional capital, but we cannot assure that attractive alternatives will always be available to us, nor that our share price will increase or remain at a level that will permit us to continue to raise equity capital publicly or privately.

***Covenants in our debt instruments could adversely affect our financial condition and our acquisitions and development activities***

The mortgages on our properties contain customary covenants such as those that limit our ability, without the prior consent of the lender, to further mortgage the applicable property or to discontinue insurance coverage. Our unsecured revolving credit facility and other loans that we may obtain in the future contain customary restrictions, requirements and other limitations on our ability to incur indebtedness, including covenants that limit our ability to incur debt based upon the level of our ratio of total debt to total assets, our ratio of secured debt to total assets, our ratio of EBITDA to interest expense, and fixed charges, and that require us to maintain a certain level of unencumbered assets to unsecured debt. Our ability to borrow under our credit facilities is subject to compliance with certain financial and other covenants. In addition, failure to comply with our covenants could cause a default under the applicable debt instrument, and we may then be required to repay such debt with capital from other sources. Under those circumstances, other sources of capital may not be available to us, or be available only on unattractive terms. Additionally, our ability to satisfy current or prospective lenders’ insurance requirements may be adversely affected if lenders generally insist upon greater insurance coverage against acts of terrorism than is available to us in the marketplace or on commercially reasonable terms.

We rely on debt financing, including borrowings under our unsecured revolving credit facility and debt secured by individual properties, to finance our acquisition and development activities and for working capital. If we are unable

to obtain debt financing from these or other sources, or to refinance existing indebtedness upon maturity, our financial condition and results of operations would likely be adversely affected. If we breach covenants in our debt agreements, the lenders can declare a default and, if the debt is secured, can take possession of the property securing the defaulted loan.

***We may acquire or develop properties or acquire other real estate related companies and this may create risks***

We may acquire or develop properties or acquire other real estate related companies when we believe that an acquisition or development is consistent with our business strategies. We may not, however, succeed in consummating desired acquisitions or in completing developments on time. In addition, we may face competition in pursuing acquisition or development opportunities that could increase our costs. Difficulties in integrating acquisitions may prove costly or time-consuming and could divert management's attention. Acquisitions or developments in new markets or industries where we do not have the same level of market knowledge may expose us to unanticipated risks in those markets and industries to which we are unable to effectively respond and, as a result, our performance in those new markets and industries and overall may be poorer than anticipated. We may also abandon acquisition or development opportunities that we have begun pursuing and consequently fail to recover expenses already incurred and have devoted management time to a matter not consummated. Furthermore, our acquisitions of new properties or companies will expose us to the liabilities of those properties or companies, some of which we may not be aware at the time of acquisition. In addition, development of our existing properties presents similar risks.

***Our real estate investments are concentrated in entertainment, entertainment-related and recreational properties and a significant portion of those investments are in megaplex theatre properties, making us more vulnerable economically than if our investments were diversified***

We primarily acquire, develop or finance entertainment, entertainment-related and recreational properties. A significant portion of our investments are in megaplex theatre properties. Although we are subject to the general risks inherent in concentrating investments in real estate, the risks resulting from a lack of diversification become even greater as a result of our business strategy to invest primarily in entertainment, entertainment-related and recreational properties. These risks are further heightened by the fact that a significant portion of our investments are in megaplex theatre properties. Although a downturn in the real estate industry could significantly adversely affect the value of our properties, a downturn in the entertainment, entertainment-related and recreational industries could compound this adverse affect. These adverse effects could be more pronounced than if we diversified our investments outside of entertainment, entertainment-related and recreational properties or, more particularly, outside of megaplex theater properties.

***If we fail to qualify as a REIT, we would be taxed as a corporation, which would substantially reduce funds available for payment of dividends to our shareholders***

If we fail to qualify as a REIT for federal income tax purposes, we will be taxed as a corporation. We are organized and believe we qualify as a REIT, and intend to operate in a manner that will allow us to continue to qualify as a REIT. However, we cannot assure you that we will remain qualified in the future. This is because qualification as a REIT involves the application of highly technical and complex provisions of the Internal Revenue Code on which there are only limited judicial and administrative interpretations, and depends on facts and circumstances not entirely within our control. In addition, future legislation, new regulations, administrative interpretations or court decisions may significantly change the tax laws, the application of the tax laws to our qualification as a REIT or the federal income tax consequences of that qualification.

If we fail to qualify as a REIT we will face tax consequences that will substantially reduce the funds available for payment of dividends:

- We would not be allowed a deduction for dividends paid to shareholders in computing our taxable income and would be subject to federal income tax at regular corporate rates
- We could be subject to the federal alternative minimum tax and possibly increased state and local taxes

- Unless we are entitled to relief under statutory provisions, we could not elect to be treated as a REIT for four taxable years following the year in which we were disqualified
- We could be subject to tax penalties and interest

In addition, if we fail to qualify as a REIT, we will no longer be required to pay dividends. As a result of these factors, our failure to qualify as a REIT could adversely affect the market price for our shares.

***We depend on dividends and distributions from our direct and indirect subsidiaries. The creditors of these subsidiaries are entitled to amounts payable to them by the subsidiaries before the subsidiaries may pay any dividends or distributions to us***

Substantially all of our assets are held through our subsidiaries. We depend on these subsidiaries for substantially all of our cash flow. The creditors of each of our direct and indirect subsidiaries are entitled to payment of that subsidiary's obligations to them, when due and payable, before distributions may be made by that subsidiary to its equity holders. Thus, our ability to make distributions to holders of our common and preferred shares depends on our subsidiaries' ability first to satisfy their obligations to their creditors and then to make distributions to us.

***Our development financing arrangements expose us to funding and purchase risks***

Our ability to meet our construction financing obligations which we have undertaken or may enter into in the future depends on our ability to obtain equity or debt financing in the required amounts. There is no assurance we can obtain this financing or that the financing rates available will ensure a spread between our cost of capital and the rent payable to us under the related leases (See Item 7 – "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Liquidity Requirements").

***We have a limited number of employees and loss of personnel could harm our operations and adversely affect the value of our common shares***

We currently have 13 full-time employees and, therefore, the impact we may feel from the loss of an employee may be greater than the impact such a loss would have on a larger organization. We are dependent on the efforts of the following individuals: David M. Brain, our President and Chief Executive Officer; Gregory K. Silvers, our Vice President, Chief Operating Officer, General Counsel and Secretary; Mark A. Peterson, our Vice President and Chief Financial Officer; and Michael L. Hiron, our Vice President — Finance. While we believe that we could find replacements for our personnel, the loss of their services could harm our operations and adversely affect the value of our common shares.

## **Risks That Apply to our Real Estate Business**

***Real estate income and the value of real estate investments fluctuate due to various factors***

The value of real estate fluctuates depending on conditions in the general economy and the real estate business. These conditions may also limit our revenues and available cash.

The factors that affect the value of our real estate include, among other things:

- international, national, regional and local economic conditions;
- consequences of any armed conflict involving, or terrorist attack against, the United States;
- our ability to secure adequate insurance;
- local conditions such as an oversupply of space or a reduction in demand for real estate in the area;
- competition from other available space;
- whether tenants and users such as customers of our tenants consider a property attractive;
- the financial condition of our tenants, including the extent of tenant bankruptcies or defaults;
- whether we are able to pass some or all of any increased operating costs through to tenants;
- how well we manage our properties;
- fluctuations in interest rates;
- changes in real estate taxes and other expenses;
- changes in market rental rates;
- the timing and costs associated with property improvements and rentals;
- changes in taxation or zoning laws;

- government regulation;
- our failure to continue to qualify as a real estate investment trust;
- availability of financing on acceptable terms or at all;
- potential liability under environmental or other laws or regulations; and
- general competitive factors.

The rents we receive and the occupancy levels at our properties may decline as a result of adverse changes in any of these factors. If our rental revenues decline, we generally would expect to have less cash available to pay our indebtedness and distribute to our shareholders. In addition, some of our unreimbursed costs of owning real estate may not decline when the related rents decline.

***There are risks associated with owning and leasing real estate***

Although our lease terms obligate the tenants to bear substantially all of the costs of operating the properties, investing in real estate involves a number of risks, including:

- The risk that tenants will not perform under their leases, reducing our income from the leases or requiring us to assume the cost of performing obligations (such as taxes, insurance and maintenance) that are the tenant's responsibility under the lease
- The risk that changes in economic conditions or real estate markets may adversely affect the value of our properties
- The risk that local conditions could adversely affect the value of our properties
- We may not always be able to lease properties at favorable rates
- We may not always be able to sell a property when we desire to do so at a favorable price
- Changes in tax, zoning or other laws could make properties less attractive or less profitable

If a tenant fails to perform on its lease covenants, that would not excuse us from meeting any debt obligation secured by the property and could require us to fund reserves in favor of our lenders, thereby reducing funds available for payment of dividends. We cannot be assured that tenants will elect to renew their leases when the terms expire. If a tenant does not renew its lease or if a tenant defaults on its lease obligations, there is no assurance we could obtain a substitute tenant on acceptable terms. If we cannot obtain another quality movie exhibitor to lease a megaplex theatre property, we may be required to modify the property for a different use, which may involve a significant capital expenditure and a delay in re-leasing the property.

***Some potential losses are not covered by insurance***

Our leases require the tenants to carry comprehensive liability, casualty, workers' compensation, extended coverage and rental loss insurance on our properties. We believe the required coverage is of the type, and amount, customarily obtained by an owner of similar properties. We believe all of our properties are adequately insured. However, there are some types of losses, such as catastrophic acts of nature, for which we or our tenants cannot obtain insurance at an acceptable cost. If there is an uninsured loss or a loss in excess of insurance limits, we could lose both the revenues generated by the affected property and the capital we have invested in the property. We would, however, remain obligated to repay any mortgage indebtedness or other obligations related to the property. Since September 11, 2001, the cost of insurance protection against terrorist acts has risen dramatically. There can be no assurance our tenants will be able to obtain terrorism insurance coverage, or that any coverage they do obtain will adequately protect our properties against loss from terrorist attack.

***Joint ventures may limit flexibility with jointly owned investments***

We may continue to acquire or develop properties in joint ventures with third parties when those transactions appear desirable. We would not own the entire interest in any property acquired by a joint venture. Major decisions regarding a joint venture property may require the consent of our partner. If we have a dispute with a joint venture partner, we may feel it necessary or become obligated to acquire the partner's interest in the venture. However, we cannot ensure that the price we would have to pay or the timing of the acquisition would be favorable to us. If we own less than a 50% interest in any joint venture, or if the venture is jointly controlled, the assets and financial results of the joint venture may not be reportable by us on a consolidated basis. To the extent we have commitments to, or on behalf of, or are dependent on, any such "off-balance sheet" arrangements, or if those arrangements or their

properties or leases are subject to material contingencies, our liquidity, financial condition and operating results could be adversely affected by those commitments or off-balance sheet arrangements.

***Our multi-tenant properties expose us to additional risks***

Our entertainment retail centers in Westminster, Colorado, New Rochelle, New York, Burbank, California and Ontario, Canada, and similar properties we may seek to acquire or develop in the future, involve risks not typically encountered in the purchase and lease-back of megaplex theatres which are operated by a single tenant. The ownership or development of multi-tenant retail centers could expose us to the risk that a sufficient number of suitable tenants may not be found to enable the center to operate profitably and provide a return to us. Retail centers are also subject to tenant turnover and fluctuations in occupancy rates, which could affect our operating results. Multi-tenant retail centers also expose us to the risk of potential "CAM slippage," which may occur when CAM fees paid by tenants are exceeded by the actual cost of taxes, insurance and maintenance at the property.

***Failure to comply with the Americans with Disabilities Act and other laws could result in substantial costs***

Our theatres must comply with the Americans with Disabilities Act (ADA). The ADA requires that public accommodations reasonably accommodate individuals with disabilities and that new construction or alterations be made to commercial facilities to conform to accessibility guidelines. Failure to comply with the ADA can result in injunctions, fines, damage awards to private parties and additional capital expenditures to remedy noncompliance. Our leases require the tenants to comply with the ADA.

Rulings in lawsuits brought by the United States Department of Justice have found AMC, our most significant tenant, to be in violation of certain provisions of the ADA. AMC has advised us it estimates that it will cost approximately \$63 million over the next five years to remedy these conditions. A portion of the rulings is being appealed by AMC. Regardless of the outcome of such appeal, the cost of remediation is the responsibility of AMC.

Our properties are also subject to various other federal, state and local regulatory requirements. With the exception of the ADA issues discussed above, we believe our properties are in material compliance with all applicable regulatory requirements. However, we do not know whether existing requirements will change or whether compliance with future requirements will involve significant unanticipated expenditures. Although these expenditures would be the responsibility of our tenants, if tenants fail to perform these obligations, we may be required to do so.

***Potential liability for environmental contamination could result in substantial costs***

Under federal, state and local environmental laws, we may be required to investigate and clean up any release of hazardous or toxic substances or petroleum products at our properties, regardless of our knowledge or actual responsibility, simply because of our current or past ownership of the real estate. If unidentified environmental problems arise, we may have to make substantial payments, which could adversely affect our cash flow and our ability to make distributions to our shareholders. This is so because:

- As owner we may have to pay for property damage and for investigation and clean-up costs incurred in connection with the contamination
- The law may impose clean-up responsibility and liability regardless of whether the owner or operator knew of or caused the contamination
- Even if more than one person is responsible for the contamination, each person who shares legal liability under environmental laws may be held responsible for all of the clean-up costs
- Governmental entities and third parties may sue the owner or operator of a contaminated site for damages and costs

These costs could be substantial and in extreme cases could exceed the value of the contaminated property. The presence of hazardous substances or petroleum products or the failure to properly remediate contamination may adversely affect our ability to borrow against, sell or lease an affected property. In addition, some environmental laws create liens on contaminated sites in favor of the government for damages and costs it incurs in connection with a contamination. Most of our loan agreements require the Company or a subsidiary to indemnify the lender against environmental liabilities. Our leases require the tenants to operate the properties in compliance with environmental laws and to indemnify us against environmental liability arising from the operation of the properties. We believe all

of our properties are in material compliance with environmental laws. However, we could be subject to strict liability under environmental laws because we own the properties. There is also a risk that tenants may not satisfy their environmental compliance and indemnification obligations under the leases. Any of these events could substantially increase our cost of operations, require us to fund environmental indemnities in favor of our lenders, limit the amount we could borrow under our unsecured revolving credit facility, and reduce our ability to service our debt and pay dividends to shareholders.

***Real estate investments are relatively non-liquid***

We may desire to sell a property in the future because of changes in market conditions, poor tenant performance or default of any mortgage we hold, or to avail ourselves of other opportunities. We may also be required to sell a property in the future to meet debt obligations or avoid a default. Specialty real estate projects such as megaplex theatres cannot always be sold quickly, and we cannot assure you that we could always obtain a favorable price. We may be required to invest in the restoration or modification of a property before we can sell it.

***There are risks in owning assets outside the United States***

Our properties in Canada and the property securing our Canadian mortgage financing are subject to the risks normally associated with international operations. The rentals under our Canadian leases, the debt service on our Canadian mortgage financing and the payments to be received on our Canadian mortgage receivable are payable or collectible (as applicable) in Canadian dollars, which could expose us to losses resulting from fluctuations in exchange rates to the extent we have not hedged our position. Canadian real estate and tax laws are complex and subject to change, and we cannot assure you we will always be in compliance with those laws or that compliance will not expose us to additional expense. We may also be subject to fluctuations in Canadian real estate values or markets or the Canadian economy as a whole, which may adversely affect our Canadian investments.

***There are risks in owning or financing properties for which the tenant's or mortgagor's operations may be impacted by weather conditions***

We have acquired and financed ski resorts and may continue to do so in the future. The operator of these properties, our tenant or mortgagor, is dependent upon the operation of its ski resorts to pay its rents and service its loans. The ski resort operator's ability to attract visitors is influenced by weather conditions and the amount of snowfall during the ski season. Adverse weather conditions may discourage visitors from participating in outdoor activities. In addition, unseasonably warm weather may result in inadequate natural snowfall, which increases the cost of snowmaking, and could render snowmaking wholly or partially ineffective in maintaining quality skiing conditions. Excessive natural snowfall may materially increase the costs incurred for grooming trails and may also make it difficult for visitors to obtain access to the ski resorts. Prolonged periods of adverse weather conditions, or the occurrence of such conditions during peak visitation periods, could have a material adverse effect on the operator's financial results and could impair the ability of the operator to make rental payments or service our loans.

***Risks That May Affect the Market Price of our Shares***

***We cannot assure you we will continue paying dividends at historical rates***

Our ability to continue paying dividends on our common shares at historical rates, to pay dividends on our preferred shares at their stated rates or to increase our common share dividend rate will depend on a number of factors, including our financial condition and results of future operations, the performance of lease terms by tenants, our ability to acquire, finance and lease additional properties at attractive rates, and provisions in our loan covenants. If we do not maintain or increase our common share dividend rate, that could have an adverse effect on the market price of our common shares and possibly our preferred shares.

***Market interest rates may have an effect on the value of our shares***

One of the factors that investors may consider in deciding whether to buy or sell our common shares or preferred shares is our dividend rate as a percentage of our share price, relative to market interest rates. If market interest rates increase, prospective investors may desire a higher dividend on our common shares or seek securities paying higher dividends or interest.

***Market prices for our shares may be affected by perceptions about the financial health or share value of our tenants or the performance of REIT stocks generally***

To the extent any of our tenants or other movie exhibitors report losses or slower earnings growth, take charges against earnings resulting from the obsolescence of multiplex theatres or enter bankruptcy proceedings, the market price for our shares could be adversely affected. The market price for our shares could also be affected by any weakness in movie exhibitor stocks generally. We believe these trends had an adverse impact on our common share price during 2001 and 2000.

***Limits on changes in control may discourage takeover attempts which may be beneficial to our shareholders***

There are a number of provisions in our Declaration of Trust, Maryland law and agreements we have with others which could make it more difficult for a party to make a tender offer for our shares or complete a takeover of the Company which is not approved by our Board of Trustees. These include:

- A staggered Board of Trustees that can be increased in number without shareholder approval
- A limit on beneficial ownership of our shares, which acts as a defense against a hostile takeover or acquisition of a significant or controlling interest, in addition to preserving our REIT status
- The ability of the Board of Trustees to issue preferred or common shares, to reclassify preferred or common shares, and to increase the amount of our authorized preferred or common shares, without shareholder approval
- Limits on the ability of shareholders to remove trustees without cause
- Requirements for advance notice of shareholder proposals at annual shareholder meetings
- Provisions of Maryland law restricting business combinations and control share acquisitions not approved by the Board of Trustees
- Provisions of Maryland law protecting corporations (and by extension REITs) against unsolicited takeovers by limiting the duties of the trustees in unsolicited takeover situations
- Provisions in Maryland law providing that the trustees are not subject to any higher duty or greater scrutiny than that applied to any other director under Maryland law in transactions relating to the acquisition or potential acquisition of control
- Provisions of Maryland law creating a statutory presumption that an act of the trustees satisfies the applicable standards of conduct for trustees under Maryland law
- Provisions in loan or joint venture agreements putting the Company in default upon a change in control
- Provisions of employment agreements with our officers calling for share purchase loan forgiveness (under certain conditions), severance compensation and vesting of equity compensation upon a change in control

Any or all of these provisions could delay or prevent a change in control of the Company, even if the change was in our shareholders' interest or offered a greater return to our shareholders.

***We may change our policies without obtaining the approval of our shareholders***

Our operating and financial policies, including our policies with respect to acquisitions of real estate or other companies, growth, operations, indebtedness, capitalization and dividends, are exclusively determined by our Board of Trustees. Accordingly, our shareholders do not control these policies.

***Dilution could affect the value of our shares***

Our future growth will depend in part on our ability to raise additional capital. If we raise additional capital through the issuance of equity securities, the interests of holders of our common shares could be diluted. Likewise, our Board of Trustees is authorized to cause us to issue preferred shares in one or more series, the holders of which would be entitled to dividends and voting and other rights as our Board of Trustees determines, and which could be senior to or convertible into our common shares. Accordingly, an issuance by us of preferred shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares. Our Series C preferred shares are convertible, at each of the holder's option, into our common shares at an initial conversion rate of 0.3504 common shares per \$25.00 liquidation preference, which is equivalent to an initial conversion price of approximately \$71.34 per common share (subject to adjustment in certain events). Depending upon the number of Series C preferred shares being converted at one time, a conversion of Series C preferred shares could be dilutive to or otherwise adversely affect the interests of holders of our common shares.

***Changes in foreign currency exchange rates may have an impact on the value of our shares***

The functional currency for our Canadian operations and mortgage note receivable is the Canadian dollar. As a result, our future earnings could be affected by fluctuations in the exchange rate between U.S. and Canadian dollars, which in turn could affect our share price. We have attempted to mitigate our exposure to Canadian currency exchange risk by having both our Canadian lease rentals and the debt service on our Canadian mortgage financing payable in the same currency. We also from time to time enter into foreign currency exchange contracts to hedge our exposure to exchange rate fluctuations. Foreign currency derivatives are subject to future risk of loss. We do not engage in purchasing foreign exchange contracts for speculative purposes.

***Tax reform could adversely affect the value of our shares***

There have been a number of proposals in Congress for major revision of the federal income tax laws, including proposals to adopt a flat tax or replace the income tax system with a national sales tax or value-added tax. Any of these proposals, if enacted, could change the federal income tax laws applicable to REITS, subject us to federal tax or reduce or eliminate the current deduction for dividends paid to our shareholders, any of which could negatively affect the market for our shares.

**Item 1B. Unresolved Staff Comments**

There are no unresolved comments from the staff of the SEC required to be disclosed herein as of the date of this Annual Report on Form 10-K.

**Item 2. Properties**

As of December 31, 2006, our real estate portfolio consisted of 75 megaplex theatre properties and various restaurant, retail and other properties located in 25 states and Ontario, Canada. Except as otherwise noted, all of the real estate investments listed below are owned or ground leased directly by us. The following table lists our properties, their locations, acquisition dates, number of theatre screens, number of seats, gross square footage, and the tenant.

Property	Location	Acquisition date	Screens	Seats	Building (gross sq. ft)	Tenant
Megaplex Theatre Properties:						
Grand 24(3)	Dallas, TX	11/97	24	5,067	98,175	AMC
Mission Valley 20(1)(3)	San Diego, CA	11/97	20	4,361	84,352	AMC
Promenade 16(3)	Los Angeles, CA	11/97	16	2,860	129,822	AMC
Ontario Mills 30(3)	Los Angeles, CA	11/97	30	5,469	131,534	AMC
Lennox 24(1)(3)	Columbus, OH	11/97	24	4,412	98,261	AMC
West Olive 16(3)	St. Louis, MO	11/97	16	2,817	60,418	AMC
Studio 30(3)	Houston, TX	11/97	30	6,032	136,154	AMC
Huebner Oaks 24(3)	San Antonio, TX	11/97	24	4,400	96,004	AMC
First Colony 24(1)(9)	Houston, TX	11/97	24	5,098	107,690	AMC
Oakview 24 (10)(9)	Omaha, NE	11/97	24	5,098	107,402	AMC
Leawood Town Center 20(9)	Leawood, KS	2/98	20	2,995	75,224	AMC
Gulf Pointe 30(2)(9)	Houston, TX	3/98	30	6,008	130,891	AMC
South Barrington 30(9)	Chicago, IL	3/98	30	6,210	130,891	AMC
Cantera 30(2)(5)	Chicago, IL	4/98	30	6,210	130,757	AMC
Mesquite 30(2)(9)	Dallas, TX	6/98	30	6,008	130,891	AMC
Hampton Town Center 24(9)	Norfolk, VA	8/98	24	5,098	107,396	AMC

- (22) Property is included as security for a \$22.0 million mortgage note payable.
- (23) Property is included as security for a \$22.0 million mortgage note payable.
- (24) Property also includes approximately 322 acres of land.
- (25) Property also includes approximately 10 acres of land.

As of December 31, 2006, our portfolio of megaplex theatre properties consisted of 6.3 million square feet and was 100% occupied, and our portfolio of retail, restaurant and other properties consisted of 1.5 million square feet and was 95% occupied. The combined portfolio consisted of 7.8 million square feet and was 99% occupied. For the year ended December 31, 2006, approximately 84% of our rental revenue (excluding the lease termination fees) was derived from theatre tenants. The following table sets forth information regarding EPR's megaplex theatre portfolio as of December 31, 2006 (dollars in thousands). This data does not include the two megaplex theatre properties held by our unconsolidated joint ventures.

**Office Location.** Our executive office is located in Kansas City, Missouri and is leased from a third party landlord. The office occupies approximately 10,960 square feet with annual rentals of \$209,000 and includes annual fixed rent escalations of \$.50 per square foot. The lease expires in December, 2009.

#### **Tenants and Leases**

Our existing leases on rental property (on a consolidated basis – excluding unconsolidated joint venture properties) provide for aggregate annual rentals of approximately \$165 million (not including periodic rent escalations or percentage rent). The megaplex theatre leases have an average remaining base term lease life of approximately 13 years and may be extended for predetermined extension terms at the option of the tenant. The theatre leases are typically triple-net leases that require the tenant to pay substantially all expenses associated with the operation of

the properties, including taxes, other governmental charges, insurance, utilities, service, maintenance and any ground lease payments.

***Property Acquisitions in 2006***

The following table lists the significant rental properties we acquired or developed during 2006:

<u>Property</u>	<u>Location</u>	<u>Tenant</u>	<u>Development Cost/ Purchase Price</u>
Firewheel 18	Garland, TX	AMC	\$22.8 million
Columbia 14	Columbia, MD	AMC	\$12.2 million
White Oak Village Cinema 14	Garner, NC	Consolidated	\$ 8.2 million
Valley Bend 18	Huntsville, AL	Rave	\$18.3 million
Grand 18	Winston Salem, NC	Southern	\$15.8 million
Cityplace 14	Kalamazoo, MI	Rave	\$17.3 million
Havens Wine Cellars	Napa Valley, CA	Billington Imports, Inc.	\$ 7.0 million
Bayou 15	Pensacola, FL	Rave	\$20.4 million
Grand Theatre 16	Slidell, LA	Southern	\$11.5 million

**Item 3. Legal Proceedings**

Other than routine litigation and administrative proceedings arising in the ordinary course of business, we are not presently involved in any litigation nor, to our knowledge, is any litigation threatened against us or our properties, which is reasonably likely to have a material adverse effect on our liquidity or results of operations.

**Item 4. Submission of Matters to a Vote of Security Holders**

No matters were submitted to a vote of security holders during the fourth quarter of the year ended December 31, 2006.

## **PART II**

### **Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The following table sets forth, for the quarterly periods indicated, the high and low sales prices per share for our common shares on the New York Stock Exchange ("NYSE") under the trading symbol "EPR" and the distributions declared.

	<b>Share price</b>		<b>Declared</b>
	<b>High</b>	<b>Low</b>	<b>Distribution</b>
2006:			
Fourth quarter	\$ 62.76	\$ 49.70	\$ 0.6875
Third quarter	49.98	42.28	0.6875
Second quarter	43.05	39.08	0.6875
First quarter	44.56	40.60	0.6875
2005:			
Fourth quarter	\$ 44.31	\$ 38.68	\$ 0.6250
Third quarter	47.50	42.71	0.6250
Second quarter	46.82	41.15	0.6250
First quarter	44.80	40.44	0.6250

The closing price for our common shares on the NYSE on February 26, 2007 was \$67.88 per share.

We declared quarterly distributions to common shareholders aggregating \$2.75 per common share in 2006 and \$2.50 per common share in 2005.

While we intend to continue paying regular quarterly dividends, future dividend declarations will be at the discretion of the Board of Trustees and will depend on our actual cash flow, our financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Code, debt covenants and other factors the Board of Trustees deems relevant. The actual cash flow available to pay dividends may be affected by a number of factors, including the revenues received from rental properties and mortgage notes, our operating expenses, debt service on our borrowings, the ability of lessees to meet their obligations to us and any unanticipated capital expenditures. Our Series A preferred shares have a fixed dividend rate of 9.50%, our Series B preferred shares have a fixed dividend rate of 7.75% and our Series C preferred shares have a fixed dividend rate of 5.75%.

During the year ended December 31, 2006, the Company did not sell any unregistered securities.

On February 26, 2007, there were approximately 577 holders of record of our outstanding common shares.

Information relating to compensation plans under which equity securities of the Company are authorized for issuance is set forth under Part III, Item 12 of this Annual Report on Form 10-K and such information is incorporated herein by reference.

***Issuer Purchases of Equity Securities <sup>(1)</sup>***

<b><u>Period</u></b>	<b><u>Total Number of Shares Purchased</u></b>	<b><u>Average Price Paid Per Share</u></b>	<b><u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u></b>	<b><u>Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs</u></b>

Total	<u>26,345</u>	<u>\$ 43.66</u>	<u>-</u>	<u>\$ -</u>

<sup>(1)</sup> Only the months listed in the table were ones during which repurchases were made during 2006.

<sup>(2)</sup> The repurchase of equity securities during January of 2006 was completed in conjunction with the vesting of employee restricted shares. These repurchases were not made pursuant to a publicly announced plan or program.

<sup>(3)</sup> The repurchase of equity securities during August of 2006 was completed in conjunction with employee stock option exercises. These repurchases were not made pursuant to a publicly announced plan or program.

As a company with shares listed on the NYSE, we are required to comply with the corporate governance rules of the NYSE. Our CEO is required to certify to the NYSE that we are in compliance with the governance rules not later than 30 days after the date of each annual shareholder meeting. Our CEO complied with this requirement in 2006. We also filed with the SEC as exhibits to our annual report on Form 10-K for the year ended December 31, 2005 the certifications of our CEO and CFO required under Sections 302 and 906 of the Sarbanes-Oxley Act.

## **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in this Annual Report on Form 10-K. The forward-looking statements included in this discussion and elsewhere in this Annual Report on Form 10-K involve risks and uncertainties, including anticipated financial performance, business prospects, industry trends, shareholder returns, performance of leases by tenants and other matters, which reflect management's best judgment based on factors currently known. See "Forward Looking Statements." Actual results and experience could differ materially from the anticipated results and other expectations expressed in our forward-looking statements as a result of a number of factors, including but not limited to those discussed in this Item and in Item 1A, "Risk Factors."

### **Overview**

Our primary business strategy is to purchase real estate (land, buildings and other improvements) that we lease to operators of destination-based entertainment and entertainment-related properties. As of December 31, 2006, we had invested approximately \$1.5 billion (before accumulated depreciation) in 75 megaplex theatre properties and various restaurant, retail, entertainment, destination recreational and specialty properties located in 25 states and Ontario, Canada. As of December 31, 2006, we had invested approximately \$19.3 million in development land and construction in progress for real-estate development. Also, as of December 31, 2006, we had invested approximately US \$60.0 million (including accrued interest) in mortgage financing for the development of a new entertainment retail center located in downtown Toronto, Ontario, Canada, \$8.1 million (including accrued interest) in mortgage financing for the Crotched Mountain Ski Resort located in Bennington, New Hampshire and \$8.1 million in mortgage financing (including accrued interest) for the development of a megaplex theatre property in Louisiana.

Substantially all of our single-tenant properties are leased pursuant to long-term, triple-net leases, under which the tenants typically pay all operating expenses of a property, including, but not limited to, all real estate taxes, assessments and other governmental charges, insurance, utilities, repairs and maintenance. A majority of our revenues are derived from rents received or accrued under long-term, triple-net leases. Tenants at our multi-tenant properties are required to pay common area maintenance charges to reimburse us for their pro rata portion of these costs.

We incur general and administrative expenses including compensation expense for our executive officers and other employees, professional fees and various expenses incurred in the process of identifying, evaluating, acquiring and financing additional properties. We are self-administered and managed by our trustees and executive officers. Our primary non-cash expense is the depreciation of our properties. We depreciate buildings and improvements on our properties over a five-year to 40-year period for tax purposes and financial reporting purposes.

Our property acquisitions and development financing commitments are financed by cash from operations, borrowings under our unsecured revolving credit facility, long-term mortgage debt and the sale of equity securities. It has been our strategy to structure leases and financings to ensure a positive spread between our cost of capital and the rentals paid by our tenants. We have primarily acquired or developed new properties that are pre-leased to a single tenant or multi-tenant properties that have a high occupancy rate. We do not typically develop or acquire properties on a speculative basis or that are not significantly pre-leased. As of December 31, 2006, we have also entered into three joint ventures formed to own and lease single properties, and have provided mortgage note financing as described above. We intend to continue entering into some or all of these types of arrangements in the foreseeable future.

Our primary challenges have been locating suitable properties, negotiating favorable lease and financing terms, and managing our portfolio as we have continued to grow. Because of our emphasis on the entertainment and entertainment-related sector of the real estate industry and the knowledge and industry relationships of our management, we have enjoyed favorable opportunities to acquire, finance and lease properties. We believe those opportunities will continue during 2007.

Our business is subject to a number of risks and uncertainties, including those described in "Risk Factors" in Item 1A of this report.

### **Critical Accounting Policies**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying consolidated financial statements and related notes. In preparing these financial statements, management has made its best estimates and assumptions that affect the reported assets and liabilities. The most significant assumptions and estimates relate to revenue recognition, depreciable lives of the real estate, the valuation of real estate, accounting for real estate acquisitions and estimating reserves for uncollectible receivables. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from these estimates.

### **Revenue Recognition**

Rents that are fixed and determinable are recognized on a straight-line basis over the minimum terms of the leases. Base rent escalation in other leases is dependent upon increases in the Consumer Price Index (CPI) and accordingly, management does not include any future base rent escalation amounts on these leases in current revenue. Most of our leases provide for percentage rents based upon the level of sales achieved by the tenant. These percentage rents are recognized once the required sales level is achieved. Lease termination fees are recognized when the related leases are canceled and we have no continuing obligation to provide services to such former tenants.

### **Real Estate Useful Lives**

We are required to make subjective assessments as to the useful lives of our properties for the purpose of determining the amount of depreciation to reflect on an annual basis with respect to those properties. These assessments have a direct impact on our net income. Depreciation and amortization are provided on the straight-line method over the useful lives of the assets, as follows:

Buildings	40 years
Tenant improvements	Base term of lease or useful life, whichever is shorter
Furniture, fixtures and equipment	3 to 25 years

### **Impairment of Real Estate Values**

We are required to make subjective assessments as to whether there are impairments in the value of our rental properties. These estimates of impairment may have a direct impact on our consolidated financial statements.

We apply the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. We assess the carrying value of our rental properties whenever events or changes in circumstances indicate that the carrying amount of a property may not be recoverable. Certain factors that may occur and indicate that impairments may exist include, but are not limited to: underperformance relative to projected future operating results, tenant difficulties and significant adverse industry or market economic trends. No such indicators existed during 2006. If an indicator of possible impairment exists, a property is evaluated for impairment by comparing the carrying amount of the property to the estimated undiscounted future cash flows expected to be generated by the property. If the carrying amount of a property exceeds its estimated future cash flows on an undiscounted basis, an impairment charge is recognized in the amount by which the carrying amount of the property exceeds the fair value of the property. Management estimates fair value of our rental properties based on projected discounted cash flows using a discount rate determined by management to be commensurate with the risk inherent in the Company. Management did not record any impairment charges for 2006.

### **Real Estate Acquisitions**

Upon acquisitions of real estate properties, we make subjective estimates of the fair value of acquired tangible assets (consisting of land, building, tenant improvements, and furniture, fixtures and equipment) and identified intangible assets and liabilities (consisting of above and below market leases, in-place leases, tenant relationships and assumed financing that is determined to be above or below market terms) in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, *Business Combinations*. We utilize methods similar to those used by

independent appraisers in making these estimates. Based on these estimates, we allocate the purchase price to the applicable assets and liabilities. These estimates have a direct impact on our net income.

#### ***Allowance for Doubtful Accounts***

Management makes quarterly estimates of the collectibility of its accounts and notes receivable related to base rents, tenant escalations (straight-line rents) and reimbursements, interest income, note principal and other revenue or income. Management specifically analyzes trends in accounts and notes receivable, historical bad debts, customer credit worthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of its allowance for doubtful accounts. In addition, when customers are in bankruptcy, management makes estimates of the expected recovery of pre-petition administrative and damage claims. These estimates have a direct impact on our net income.

#### **Recent Developments**

Following are our significant developments during the year ended December 31, 2006:

##### **Credit Facility**

On January 31, 2006, we amended and restated our secured revolving credit facility to increase the size of the facility to \$200 million from \$150 million and reduce the interest rate charged on the facility from rates ranging from LIBOR plus 175 to 250 basis points to LIBOR plus 130 to 175 basis points. The facility was also converted from a secured to an unsecured facility. The unsecured revolving credit facility has a three year term expiring in 2009 with a one year extension available at our option. As a result of this amendment and restatement, we expensed certain unamortized financing costs, totaling approximately \$673 thousand, in the first quarter of 2006. On June 6, 2006 the size of the facility was increased to \$235 million from \$200 million with no modification to the terms and conditions of the credit agreement.

##### **Debt Financing**

On February 10, 2006, we paid off approximately \$109 million in mortgage notes payable that had matured using funds from related debt service escrow deposits, borrowings under our amended and restated unsecured revolving credit facility and approximately \$44 million in proceeds from the refinancing of two of the theatres originally included as security for those mortgage notes payable. The new mortgage loans bear interest at 5.84%, mature on March 6, 2016 and require monthly principal and interest payments totaling \$279 thousand with a final principal payment at maturity totaling \$33.9 million. On May 22, 2006, we obtained two non-recourse mortgage loans totaling \$31.0 million. The proceeds of these loans were used to pay down our unsecured revolving credit facility. These mortgages are each secured by one theatre property located in Hurst, Texas and one theatre property in Mesa, Arizona. The mortgage loans bear interest at 6.3715%, mature on June 1, 2016 and require monthly principal and interest payments totaling \$207 thousand with final principal payments at maturity totaling \$24.4 million.

On September 12 and September 14, 2006, we obtained four non-recourse mortgage loans totaling \$27.8 million. The proceeds of these loans were used to pay down our unsecured revolving credit facility. These mortgages are secured by two theatre properties located in California and one each in South Carolina and North Carolina. The mortgage loans bear interest at 6.099%, mature on October 1, 2016 and require monthly principal and interest payments totaling \$180 thousand with final principal payments at maturity totaling \$21.7 million.

On September 29, 2006, we obtained three non-recourse mortgage loans totaling \$20.9 million. The proceeds of these loans were used to pay down our unsecured revolving credit facility. These mortgages are secured by three theatre properties located in Georgia, California and Louisiana. The mortgage loans bear interest at 6.02%, mature on October 6, 2016 and require monthly principal and interest payments totaling \$135 thousand with final principal payments at maturity totaling \$16.2 million.

##### **Equity Offerings**

On February 8, 2006, we issued 1.0 million common shares at \$41.25 per share in a registered public offering. The underwriter of this offering subsequently exercised an option to purchase an additional 150,000 common shares at \$41.25 per share which closed on February 15, 2006. Total net proceeds after expenses were approximately

\$46.2 million, and were used to pay down our unsecured revolving credit facility, pending application for general corporate purposes, including the acquisition, development and financing of properties.

On December 22, 2006, we issued 5.4 million 5.75% Series C cumulative convertible preferred shares at \$24.50 per share in a registered public offering. Total net proceeds after expenses were approximately \$130.8 million, and were used to pay down our unsecured revolving credit facility, pending application for general corporate purposes, including the acquisition, development and financing of properties.

#### **Investments**

On March 3, 2006, we invested an additional \$8.7 million Canadian (U.S. \$7.7 million) in the secured mortgage construction loan to Metropolis Limited Partnership (the Partnership) and the original mortgage note was amended and restated. No principal or interest payments on the mortgage note receivable are now due prior to May 31, 2008. In addition, the Option Date (as defined in the loan agreement) was changed to May 31, 2008 and the Partnership's extension right was reduced from 12 months to 6 months such that the outside Option Date remains November 30, 2008. The additional \$8.7 million Canadian bears interest at 15% and has a stated maturity of February 9, 2011. Interest is payable monthly beginning in June 2008. We received a loan origination fee at closing of \$400 thousand Canadian which is being amortized as additional mortgage financing interest income over the term of the loan. All other terms of the mortgage note remain unchanged. (For further information, see Note 15 to the consolidated financial statements in this Annual Report on Form 10-K).

On March 10, 2006, we provided a secured mortgage loan of \$8.0 million to SNH Development, Inc. The secured property is the Croched Mountain Ski Resort located in Bennington, New Hampshire. The property serves the Boston and Southern New Hampshire markets and has approximately 45 acres of skiing terrain that is serviced by nine lifts. This loan is guaranteed by Peak Resorts, Inc., which operates the property, and has a maturity date of March 10, 2027. Monthly interest payments are made by the borrower and the unpaid principal balance initially bears interest at 9.25% per annum. Annually, this interest rate increases based on a formula dependent in part on increases in CPI.

On March 30, 2006, we acquired two megaplex theatre properties in Garland, Texas and Columbia, Maryland. The Firewheel 18 and Columbia 14 are both operated by AMC and were acquired for a total cost of approximately \$35.0 million. Of this cost, we allocated \$14.8 million to the building and \$8.0 million to the land at Firewheel 18. For Columbia 14, \$12.2 million was allocated to the building. As Columbia 14 is subject to a third-party ground lease, for which the tenant is responsible, no amount was allocated to land. The theatres are leased under long-term triple-net leases.

On May 5, 2006, we agreed to terminate a ground lease on our Hialeah, Florida theatre, The Grand 18. In conjunction with this termination, the tenant paid us \$4.0 million and we released the tenant from its ground lease obligation, which was a 20-year lease expiring in 2020. The building improvements, which were owned by the tenant, reverted to us in conjunction with the ground lease termination. This \$4.0 million termination fee was recorded as rental income and no value was assigned to the improvements. The property was subsequently leased to an unrelated tenant.

On August 17, 2006, we completed the acquisition of a megaplex theatre property in Huntsville, Alabama. The Valley Bend 18 is operated by Rave Motion Pictures and was acquired for a total cost (including land and building) of approximately \$18.3 million. This theatre is leased under a long-term *triple-net* lease.

On September 1, 2006, we exercised our option to purchase 25 acres of development land adjacent to our property in Suffolk, Virginia. The land was acquired for a total cost of approximately \$5.0 million. We intend to develop this property into additional retail space.

On September 18, 2006, our restaurant in Southfield Michigan, which we previously operated through a wholly-owned taxable REIT subsidiary, was closed and the space was subsequently leased to an unrelated restaurant tenant.

On December 13, 2006, we purchased a ten acre vineyard and winery facility in Napa Valley, California, and simultaneously leased this property to a wholly-owned subsidiary of Billington Imports, Inc. The acquisition price for the property was approximately \$7.0 million and it is leased under a long-term triple-net lease.

On December 28, 2006, we completed the acquisition of a megaplex theatre property in Pensacola, Florida. The Bayou 15 is operated by Rave Motion Pictures and was acquired for a total cost (including land and building) of approximately \$20.4 million. This theatre is leased under a long-term triple-net lease.

During the quarter ended December 31, 2006, we provided a secured construction mortgage loan of \$8.0 million to Boardwalk Ventures, LLC, Grand Slidell, LLC and Esplanade Theatres, LLC. The funds from this loan are being used to construct a megaplex theatre property in Louisiana. This loan is secured by the property under development and guaranteed by VSS-Southern Theatres, LLC, which will operate the property at completion. The loan has a maturity date of November 9, 2007 and monthly interest payments are made by the borrower. The unpaid principal balance bears interest at LIBOR plus 3.5%.

During the year ended December 31, 2006, we completed development of four megaplex theatre properties located in North Carolina, Michigan and Louisiana. The White Oak Village Cinema 14 in Garner, North Carolina is operated by Consolidated Theatres and was completed for a total development cost (including land and building) of approximately \$8.2 million. The Grand 18 in Winston-Salem, North Carolina is operated by Southern Theatres and was completed for a total development cost (including land and building) of approximately \$15.8 million. The Cityplace 14 in Kalamazoo, Michigan is operated by Rave Motion Pictures and was completed for a total development cost (including land and building) of approximately \$17.3 million. The Grand Theatre 16 in Slidell, Louisiana is operated by Southern Theatres and was completed for a total development cost of approximately \$11.5 million (the land at Slidell is subject to a third party ground lease). These theatres are leased under long-term triple-net leases.

As of December 31, 2006, we had two theatre development projects under construction for which we have agreed to finance the development costs. The properties have been pre-leased to the prospective tenants under long-term triple-net leases. These theatres are expected to have a total of 32 screens and their development costs (including land) are expected to be approximately \$28.8 million. Through December 31, 2006, we have invested \$12.0 million in these projects (including land), and have commitments to fund approximately \$16.8 million of additional improvements. Development costs are advanced by us in periodic draws. If we determine that construction is not being completed in accordance with the terms of the development agreement, we can discontinue funding construction draws.

## **Results of Operations**

### ***Year ended December 31, 2006 compared to year ended December 31, 2005***

Rental revenue was \$167.7 million for the year ended December 31, 2006, compared to \$145.2 million for the year ended December 31, 2005. The \$22.5 million increase resulted primarily from the property acquisitions and developments completed in 2005 and 2006, base rent increases on existing properties and the recognition of a lease termination fee of \$4.0 million related to the termination of our lease with the previous tenant of our theatre in Hialeah, Florida. This property has been leased to a new tenant. No termination fees were recognized during the year ended December 31, 2005. Percentage rents of \$1.6 million and \$1.9 million were recognized during 2006 and 2005, respectively. Straight-line rents of \$3.9 and \$2.2 million were recognized during 2006 and 2005, respectively. As of December 31, 2006 and 2005, the receivable for straight-line rents was \$16.4 million and \$4.7 million, respectively. As further described in Note 19 to the consolidated financial statements in this Annual Report on Form 10-K, the Company adopted Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB 108") effective January 1, 2006. The adjustments made in conjunction with our implementation of SAB 108 resulted in an increase of approximately \$1.4 million in straight-line rental revenues for the year ended December 31, 2006 and an increase in the net receivable for straight-line rents of \$9.0 million at December 31, 2006.

Tenant reimbursements totaled \$14.6 million for the year ended December 31, 2006 compared to \$12.5 million for the year ended December 31, 2005. These tenant reimbursements arise from the operations of our retail centers. The \$2.1 million increase is due to a \$0.7 million increase at our retail center in Burbank, California which was acquired on March 31, 2005, and the remainder of the increase is due to increases in tenant reimbursement rates primarily at our retail centers in Ontario, Canada, which resulted in an increase in tenant reimbursements of \$1.1 million.

Other income was \$3.6 million for the year ended December 31, 2006 compared to \$3.5 million for the year ended December 31, 2005. The increase of \$0.1 million is due to the following:

- An increase of \$0.5 million in revenues from a restaurant in Southfield, Michigan opened in September 2005 and previously operated through a wholly-owned taxable REIT subsidiary. As discussed in the "Recent Developments" section in this Annual Report on Form 10-K, the restaurant in Southfield, Michigan was closed during the third quarter of 2006 and the space was leased to an unrelated restaurant tenant.
- An increase of \$0.4 million related to the recognition of a gain for the year ended December 31, 2006 resulting from an insurance claim. As a result of the hurricane events of October 2005, one non triple-net retail property in Pompano Beach, Florida suffered significant damage to its roof. The insurance company reimbursed us for the replacement of the roof less our deductible in January 2007.
- A decrease of \$0.2 million in revenues from our family bowling center in Westminster, Colorado which is operated through a wholly-owned taxable REIT subsidiary.
- Development fees of \$0.6 million were received in the year ended December 31, 2005 and no development fees were received in the year ended December 31, 2006.

Mortgage financing interest for the year ended December 31, 2006 was \$9.5 million compared to \$3.6 million for the year ended December 31, 2005 and related to interest income from mortgage financing for the development of an entertainment retail center in Canada, mortgage financing for a ski resort in Bennington, New Hampshire and mortgage financing for the development of a megaplex theatre in Louisiana in June of 2005, March of 2006 and November of 2006, respectively (described in Note 15 to the consolidated financial statements in this Annual Report on Form 10-K and in "Recent Developments" above).

Our property operating expense totaled \$19.0 million for the year ended December 31, 2006 compared to \$16.2 million for the year ended December 31, 2005. These property operating expenses arise from the operations of our retail centers. The \$2.8 million increase is due to increases in property taxes, bad debt expense and other property operating expenses at certain of these properties. The property operating expenses at our Burbank, California retail center, which was acquired on March 31, 2005, increased by \$1.1 million of which \$0.3 million was incurred in the second quarter of 2006 in conjunction with the early termination of a property management agreement covering this center. The property operating expenses at our Ontario, Canada retail centers increased by \$1.4 million primarily due to increases in property taxes. Additionally, bad debt expense increased by \$0.4 million during 2006.

Other operating expense totaled \$3.5 million for the year ended December 31, 2006 compared to \$3.0 million for the year ended December 31, 2005. The increase of \$0.5 million primarily relates to expenses from a restaurant in Southfield, Michigan opened in September 2005, and previously operated through a wholly-owned taxable REIT subsidiary. As discussed in the "Recent Developments" section in this Annual Report on Form 10-K, the restaurant in Southfield Michigan was closed during the third quarter of 2006 and the space was leased to an unrelated restaurant tenant.

Our general and administrative expense totaled \$12.5 million for the year ended December 31, 2006 compared to \$7.3 million for the year ended December 31, 2005. This increase primarily resulted from share-based compensation expense, which we account for in accordance with SFAS 123R, *Share Based Payment*. In 2006, we changed how we account for restricted stock bonus awards issued pursuant to our Annual Incentive Plan. As further described in Note 2 to the consolidated financial statements in this Annual Report on Form 10-K, during the year ended December 31, 2006, we expensed \$1.7 million of unvested restricted stock awards that related to bonus awards from prior years. This adjustment was made because the employees who received the awards could have elected to receive cash instead of restricted shares at the time in which they elected to receive their bonuses in restricted shares. Additionally, as further described in Note 18 to the consolidated financial statements in this Annual Report on Form 10-K, during the year ended December 31, 2006, we recognized an expense of \$1.4 million related to the retirement of one of our executives. This amount represented the fair value of the executive's unvested share options and restricted shares at his retirement date of June 30, 2006. The remainder of the increase is due primarily to payroll and related expenses attributable to increases in base and incentive compensation, additional

employees, certain employee benefits and grants of restricted shares to management, as well as increases in franchise taxes and professional fees.

Costs associated with loan refinancing for the year ended December 31, 2006 were \$0.7 million. These costs related to the amendment and restatement of our revolving credit facility and consisted of the write-off of \$0.7 million of certain unamortized financing costs. No such costs were incurred during the year ended December 31, 2005.

Our net interest expense increased by \$5.0 million to \$47.4 million for the year ended December 31, 2006 from \$42.4 million for the year ended December 31, 2005. The increase in net interest expense primarily resulted from increases in long-term debt used to finance real estate acquisitions and increases in the interest rates associated with our borrowings under the unsecured revolving credit facility.

Depreciation and amortization expense totaled \$31.2 million for the year ended December 31, 2006 compared to \$27.6 million for the year ended December 31, 2005. The \$3.6 million increase resulted primarily from the property acquisitions completed in 2005 and 2006.

The gain on sale of land of \$0.3 million for the year ended December 31, 2006 was due to the sale of an acre of land that was originally purchased along with one of our megaplex theatres. There was no gain on sale of land recognized for the year ended December 31, 2005.

Preferred dividend requirements for the year ended December 31, 2006 were \$11.9 million compared to \$11.4 million for the same period in 2005. The \$0.5 million increase is due to the issuance of 3.2 million Series B preferred shares in January of 2005 and 5.4 million Series C preferred shares in December of 2006.

***Year ended December 31, 2005 compared to year ended December 31, 2004***

Rental revenue was \$145.2 million for the year ended December 31, 2005, compared to \$124.4 million for the year ended December 31, 2004. The \$20.8 million increase resulted primarily from the property acquisitions and developments completed in 2005 and 2004 and base rent increases on existing properties. Percentage rents of \$1.9 million and \$2.2 million were recognized during 2005 and 2004, respectively. Straight-line rents of \$2.2 million were recognized for both 2005 and 2004. As of December 31, 2005 and 2004, the receivable for straight-line rents was \$4.7 million and \$2.4 million, respectively.

Tenant reimbursements totaled \$12.5 million for the year ended December 31, 2005 compared to \$8.3 million for the year ended December 31, 2004. These tenant reimbursements arise from the operations of our retail centers. The \$4.2 million increase is due primarily to the acquisitions of the retail centers in Burbank, California on March 31, 2005 and Ontario, Canada on March 1, 2004.

Other income was \$3.5 million for the year ended December 31, 2005 compared to \$0.6 million for the year ended December 31, 2004. The increase of \$2.9 million relates to revenues from a family bowling center in Westminster, Colorado opened in November 2004 and a restaurant in Southfield, Michigan opened in September 2005. Both were operated through wholly-owned taxable REIT subsidiaries. As discussed in the Recent Developments section in this Annual Report on Form 10-K, the restaurant in Southfield Michigan was closed during the third quarter of 2006 and the space was leased to an unrelated restaurant tenant.

Mortgage financing interest for the year ended December 31, 2005 was \$3.6 million and related solely to interest income from the mortgage note financing we provided in Canada in June of 2005 (described in Note 15 to the consolidated financial statements in this Annual Report on Form 10-K). No such revenue was recognized during 2004.

Our property operating expense totaled \$16.2 million for the year ended December 31, 2005 compared to \$10.7 million for the year ended December 31, 2004. These property operating expenses arise from the operations of our retail centers. The \$5.5 million increase is due primarily to the acquisitions of the retail centers in Burbank, California on March 31, 2005 and Ontario, Canada on March 1, 2004, and increases in property taxes and maintenance at certain of these properties.

Other operating expense totaled \$3.0 million for the year ended December 31, 2005 and related solely to the operations of the family bowling center in Westminster, Colorado and a restaurant in Southfield, Michigan. Both were operated through wholly-owned taxable REIT subsidiaries. No such costs were incurred during 2004. As

discussed in the "Recent Developments" section in this Annual Report on Form 10-K, the restaurant in Southfield Michigan was closed during the third quarter of 2006 and the space was leased to an unrelated restaurant tenant.

Our general and administrative expenses totaled \$7.3 million for the year ended December 31, 2005 compared to \$6.1 million for the year ended December 31, 2004. The \$1.2 million increase is due primarily to the following:

- An increase in franchise taxes due to an increase in the size of our real estate portfolio.
- Payroll and related expenses attributable to increases in base compensation, bonus awards, and payroll taxes related to the vesting of stock grants and the exercise of stock options, and the addition of employees.
- Grants of restricted shares to management.

Costs associated with loan refinancing for the year ended December 31, 2004 were \$1.1 million. These costs related to the termination of our iStar Credit Facility and consisted of a prepayment penalty of \$0.4 million and the write-off of \$0.7 million of remaining unamortized financing fees. No such costs were incurred during the year ended December 31, 2005.

Our net interest expense increased by \$4.3 million to \$42.4 million for the year ended December 31, 2005 from \$38.1 million for the year ended December 31, 2004. The increase in net interest expense primarily resulted from increases in long-term debt used to finance real estate acquisitions and increases in the interest rate associated with our borrowings under the revolving credit facility that we amended and restated in 2006.

Depreciation and amortization expense totaled \$27.6 million for the year ended December 31, 2005 compared to \$23.4 million for the year ended December 31, 2004. The \$4.2 million increase resulted primarily from the property acquisitions completed in 2005 and 2004.

For the year ended December 31, 2005, minority interest in net income was \$34 thousand compared to \$953 thousand for the year ended December 31, 2004. The decrease is due primarily to the conversion of the preferred interest in EPT Gulf States, LLC as of September 20, 2004 to 857,145 common shares of the Company. Minority interest for the year ended December 31, 2005, relates solely to New Roc.

Preferred dividend requirements for the year ended December 31, 2005 were \$11.4 million compared to \$5.5 million for the same period in 2004. The \$5.9 million increase is due to the issuance of 3.2 million Series B preferred shares in January of 2005 (described in Note 14 to the consolidated financial statements in this Annual Report on Form 10-K).

#### **Liquidity and Capital Resources**

Cash and cash equivalents were \$9.4 million at December 31, 2006. In addition, we had restricted cash of \$7.4 million at December 31, 2006 required in connection with debt service, payment of real estate taxes and capital improvements.

#### ***Mortgage Debt and Credit Facilities***

As of December 31, 2006, we had total debt outstanding of \$675.3 million. As of December 31, 2006, \$650.3 million of debt outstanding was fixed rate mortgage debt secured by a substantial portion of our rental properties, with a weighted average interest rate of approximately 6.1%. All of our debt is described in Note 7 to the consolidated financial statements in this Annual Report on Form 10-K.

At December 31, 2006, we had \$25.0 million in debt outstanding under our \$235.0 million unsecured revolving credit facility, with interest at a floating rate. This credit facility matures in January of 2009.

Our principal investing activity is the purchase and development of rental property, which has generally been financed with mortgage debt and the proceeds from equity offerings. Our unsecured revolving credit facility is also used to finance the acquisition or development of properties, and to provide mortgage financing. Continued growth of our rental property and mortgage financing portfolios will depend in part on our continued ability to access funds through additional borrowings and equity security offerings.

### **Capital Structure and Coverage Ratios**

We believe that our shareholders are best served by a conservative capital structure. Therefore, we seek to maintain a conservative debt level on our balance sheet and solid interest, fixed charge and debt service coverage ratios. We expect to maintain a debt to total capitalization ratio (i.e. total-long term debt of the Company as a percentage of shareholders' equity plus total liabilities) between 50% and 55%. However, the timing and size of our equity offerings may cause us to temporarily operate outside of this range. At December 31, 2006, our debt to total capitalization ratio was 43%. The 43% is outside of our range due to our offering of Series C preferred shares in December 2006 which raised net proceeds of approximately \$130.8 million. Our long-term debt as a percentage of our total market capitalization at December 31, 2006 was 27%. We do not manage to a ratio based on total market capitalization due to the inherent variability that is driven by changes in the market price of our common shares. We calculate our total market capitalization of \$2.5 billion as follows at December 31, 2006:

- Common shares outstanding of 26,477,924, multiplied by the last reported sales price of our common shares on the NYSE of \$58.44 per share, or \$1.55 billion;
- Aggregate liquidation value of our Series A preferred shares of \$57.5 million;
- Aggregate liquidation value of our Series B preferred shares of \$80 million;
- Aggregate liquidation value of our Series C preferred shares of \$135 million; and
- Total long-term debt of \$675.3 million

Our interest coverage ratio for the years ended December 31, 2006, 2005 and 2004 was 3.3 times, 3.2 times, and 2.9 times, respectively. Interest coverage is calculated as the interest coverage amount (as calculated in the following table) divided by interest expense, gross (as calculated in the following table). We consider the interest coverage ratio to be an appropriate supplemental measure of a company's ability to meet its interest expense obligations. Our calculation of the interest coverage ratio may be different from the calculation used by other companies, and therefore, comparability may be limited. This information should not be considered as an alternative to any GAAP liquidity measures. The following table shows the calculation of our interest coverage ratios (dollars in thousands):

	<b>Year Ended December 31,</b>		
	<b>2006</b>	<b>2005</b>	<b>2004</b>
Net income	\$ 82,289	69,060	53,713
Interest expense, gross	49,092	44,203	41,678
Interest cost capitalized	(100)	(160)	(688)
Minority interests	—	34	953
Depreciation and amortization	31,155	27,597	23,365
Share-based compensation expense to management and trustees	4,869	1,957	1,584
Gain on sale of land	(345)	—	—
Costs associated with loan refinancing	673	—	1,134
Straight-line rental revenue	(3,925)	(2,242)	(2,248)
Interest coverage amount	\$ 163,708	140,449	119,491
Interest expense, net	\$ 47,438	42,427	38,054
Interest income	1,554	1,616	2,936
Interest cost capitalized	100	160	688
Interest expense, gross	\$ 49,092	44,203	41,678
Interest coverage ratio	<u>3.3</u>	<u>3.2</u>	<u>2.9</u>

The interest coverage amount per the above table can be reconciled to net cash provided by operating activities per the consolidated statements of cash flows included in this Annual Report on Form 10-K as follows (in thousands):

	<b>Year Ended December 31,</b>		
	<b>2006</b>	<b>2005</b>	<b>2004</b>
Net cash provided by operating activities	\$ 105,562	94,531	80,710
Equity in income from joint ventures	759	728	654
Amortization of deferred financing costs	(2,713)	(3,345)	(3,299)
Cash portion of costs associated with loan refinancing	—	—	405
Increase in mortgage notes accrued interest receivable	8,861	3,508	—
Increase in accounts receivable	5,404	1,539	3,841
Increase in other assets	3,122	1,662	2,720
Increase in accounts payable and accrued liabilities	(2,635)	(312)	(3,543)
Decrease (increase) in unearned rents	281	337	(739)
Straight-line rental revenue	(3,925)	(2,242)	(2,248)
Interest expense, gross	49,092	44,203	41,678
Interest cost capitalized	(100)	(160)	(688)
Interest coverage amount	<u>\$ 163,708</u>	<u>140,449</u>	<u>119,491</u>

Our fixed charge coverage ratio for the years ended December 31, 2006, 2005 and 2004 was 2.7 times, 2.5 times, and 2.5 times, respectively. The fixed charge coverage ratio is calculated in exactly the same manner as the interest coverage ratio, except that preferred share dividends are also added to the denominator. We consider the fixed charge coverage ratio to be an appropriate supplemental measure of a company's ability to make its interest and preferred share dividend payments. Our calculation of the fixed charge coverage ratio may be different from the calculation used by other companies and, therefore, comparability may be limited. This information should not be considered as an alternative to any GAAP liquidity measures. The following table shows the calculation of our fixed charge coverage ratios (dollars in thousands):

	<b>Year Ended December 31,</b>		
	<b>2006</b>	<b>2005</b>	<b>2004</b>
Interest coverage amount	\$ 163,708	140,449	119,491
Interest expense, gross	49,092	44,203	41,678
Preferred share dividends	<u>11,857</u>	<u>11,353</u>	<u>5,463</u>
Fixed charges	\$ 60,949	55,556	47,141
Fixed charge coverage ratio	<u>2.7</u>	<u>2.5</u>	<u>2.5</u>

Our debt service coverage ratio for the years ended December 31, 2006, 2005 and 2004 was 2.6 times, 2.4 times, and 2.2 times, respectively. The debt service coverage ratio is calculated in exactly the same manner as the interest coverage ratio, except that recurring principal payments are also added to the denominator. We consider the debt service coverage ratio to be an appropriate supplemental measure of a company's ability to make its debt service payments. Our calculation of the debt service coverage ratio may be different from the calculation used by other companies and, therefore, comparability may be limited. This information should not be considered as an

alternative to any GAAP liquidity measures. The following table shows the calculation of our debt service charge coverage ratios (dollars in thousands):

	Year Ended December 31,		
	2006	2005	2004
Interest coverage amount	\$ 163,708	140,449	119,491
Interest expense, gross	49,092	44,203	41,678
Recurring principle payments	14,810	14,885	12,923
Debt service	\$ 63,902	59,088	54,601
Debt service coverage ratio	2.6	2.4	2.2

### **Liquidity Requirements**

Short-term liquidity requirements consist primarily of normal recurring corporate operating expenses, debt service requirements and distributions to shareholders. We meet these requirements primarily through cash provided by operating activities. Cash provided by operating activities was \$105.6 million for the year ended December 31, 2006; \$94.5 million for the year ended December 31, 2005 and \$80.7 million for the year ended December 31, 2004. We anticipate that our cash on hand, cash from operations, and funds available under our unsecured revolving credit facility will provide adequate liquidity to fund our operations, make interest and principal payments on our debt, and allow distributions to our shareholders and avoidance of corporate level federal income or excise tax in accordance with Internal Revenue Code requirements for qualification as a REIT.

Long-term liquidity requirements at December 31, 2006 consisted primarily of maturities of long-term debt. Contractual obligations as of December 31, 2006 are as follows (in thousands):

Contractual Obligations	Year ended December 31,						
	2007	2008	2009	2010	2011	Thereafter	Total
Long Term Debt Obligations	\$ 16,446	106,458	41,360	17,376	18,455	475,210	675,305
Interest on Long Term Debt Obligations	44,840	42,075	31,073	30,104	29,745	80,377	258,214
Construction commitments	16,758	—	—	—	—	—	16,758
Operating Lease Obligations	209	214	220	—	—	—	643
Total	\$ 78,253	148,747	72,653	47,480	48,200	555,587	950,920

We believe that we will be able to obtain financing in order to repay our debt obligations by refinancing the properties as the debt comes due. However, there can be no assurance that additional financing or capital will be available, or that terms will be acceptable or advantageous to us.

Our primary use of cash after paying operating expenses, debt service and distributions to shareholders is in the acquisition, development and financing of properties. We expect to finance these investments with borrowings under our unsecured revolving credit facility, as well as long-term debt and equity financing alternatives. The availability and terms of any such financing will depend upon market and other conditions. If we borrow the maximum amount available under our unsecured revolving credit facility, there can be no assurance that we will be able to obtain additional investment financing, which would not affect our liquidity, but would affect our ability to grow (See "Risk Factors").

We had two theatre projects under construction at December 31, 2006. The properties have been pre-leased to the prospective tenants under long-term triple-net leases. The cost of development is paid by us in periodic draws. The related timing and amount of rental payments to be received by us from tenants under the leases correspond to the timing and amount of funding by us of the cost of development. These theatres will have a total of 32 screens and their total development costs (including land) will be approximately \$28.8 million. Through December 31, 2006, we have invested \$12.0 million in these projects (including land), and have commitments to fund an additional \$16.8 million in improvements as reflected in the table above. We plan to fund development primarily with funds

generated by debt financing and/or equity offerings. If we determine that construction is not being completed in accordance with the terms of the development agreement, we can discontinue funding construction draws.

#### ***Off Balance Sheet Arrangements***

At December 31, 2006, we had a 20% investment interest in two unconsolidated real estate joint ventures, Atlantic-EPR I and Atlantic-EPR II, which are accounted for under the equity method of accounting. We do not anticipate any material impact on our liquidity as a result of any commitments that may arise involving those joint ventures. We recognized income of \$464, \$437 and \$410 (in thousands) from our investment in the Atlantic-EPR I joint venture during 2006, 2005 and 2004, respectively. We also recognized income of \$295, \$291 and \$244 (in thousands) from our investment in the Atlantic-EPR II joint venture during 2006, 2005 and 2004, respectively. Condensed financial information for Atlantic-EPR I and Atlantic-EPR II joint ventures is included in Note 4 to the consolidated financial statements included in this Annual Report on Form 10-K.

The joint venture agreements for Atlantic-EPR I and Atlantic-EPR II allow our partner, Atlantic of Hamburg, Germany (Atlantic), to exchange up to a maximum of 10% of its ownership interest per year in each of the joint ventures for our common shares or, at our discretion, the cash value of those shares as defined in each of the joint venture agreements.

#### **Funds From Operations (FFO)**

The National Association of Real Estate Investment Trusts (NAREIT) developed FFO as a relative non-GAAP financial measure of performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO is a widely used measure of the operating performance of real estate companies and is provided here as a supplemental measure to Generally Accepted Accounting Principles (GAAP) net income available to common shareholders and earnings per share. FFO, as defined under the revised NAREIT definition and presented by us, is net income available to common shareholders, computed in accordance with GAAP, excluding gains and losses from sales of depreciable operating properties, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships, joint ventures and other affiliates. Adjustments for unconsolidated partnerships, joint ventures and other affiliates are calculated to reflect FFO on the same basis. FFO is a non-GAAP financial measure. FFO does not represent cash flows from operations as defined by GAAP and is not indicative that cash flows are adequate to fund all cash needs and is not to be considered an alternative to net income or any other GAAP measure as a measurement of the results of our operations or our cash flows or liquidity as defined by GAAP. It should also be noted that not all REITs calculate FFO the same way so comparisons with other REITs may not be meaningful.

The following tables summarize the Company's FFO for the years ended December 31, 2006 and December 31, 2005 (in thousands):

	<b>Year ended December 31,</b>	
	<b>2006</b>	<b>2005</b>
Net income available to common shareholders	\$ 70,432	57,707
Add: Real estate depreciation and amortization	30,349	27,043
Add: Allocated share of joint venture depreciation	244	242
FFO available to common shareholders	<u>\$ 101,025</u>	<u>84,992</u>
FFO per common share:		
Basic	\$ 3.86	3.40
Diluted	3.79	3.33
Shares used for computation (in thousands):		
Basic	26,147	25,019
Diluted	26,627	25,504
Other financial information:		
Straight-lined rental revenue	\$ 3,925	2,242
Dividends per common share	\$ 2.75	2.50
FFO payout ratio*	73%	75%

\* FFO payout ratio is calculated by dividing dividends per common share by FFO per diluted common share.

#### ***Impact of Recently Issued Accounting Standards***

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS 109, *Accounting for Income Taxes*, and it prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 is effective for us on January 1, 2007. The adoption of FIN 48 is not expected to have any material impact on our financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Where applicable, SFAS No. 157 simplifies and codifies related guidance within GAAP and does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier adoption is encouraged. The Company does not expect the adoption of SFAS No. 157 to have a significant effect on its financial position or results of operations.

#### ***Inflation***

Investments by EPR are financed with a combination of equity and debt. During inflationary periods, which are generally accompanied by rising interest rates, our ability to grow may be adversely affected because the yield on new investments may increase at a slower rate than new borrowing costs.

All of our megaplex theatre leases provide for base and participating rent features. To the extent inflation causes tenant revenues at our properties to increase over baseline amounts, we would participate in those revenue increases through our right to receive annual percentage rent. Our leases also generally provide for escalation in base rents in the event of increases in the Consumer Price Index, with a limit of 2% per annum, or fixed periodic increases.

Our theatre leases are triple-net leases requiring the tenants to pay substantially all expenses associated with the operation of the properties, thereby minimizing our exposure to increases in costs and operating expenses resulting from inflation. A portion of our retail and restaurant leases are non-triple-net leases. These retail leases represent approximately 18% of our total real estate square footage. To the extent any of those leases contain fixed expense reimbursement provisions or limitations, we may be subject to increases in costs resulting from inflation that are not fully passed through to tenants.

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to market risks, primarily relating to potential losses due to changes in interest rates. We seek to mitigate the effects of fluctuations in interest rates by matching the term of new investments with new long-term fixed rate borrowings whenever possible. We also have a \$235 million unsecured revolving credit facility that bears interest at a floating rate. This credit facility is used to acquire properties, finance our development commitments and provide mortgage financing.

We are subject to risks associated with debt financing, including the risk that existing indebtedness may not be refinanced or that the terms of such refinancing may not be as favorable as the terms of current indebtedness. The majority of our borrowings are subject to mortgages or contractual agreements which limit the amount of indebtedness we may incur. Accordingly, if we are unable to raise additional equity or borrow money due to these limitations, our ability to acquire additional properties may be limited.

The following table presents the principal amounts, weighted average interest rates, and other terms required by year of expected maturity to evaluate the expected cash flows and sensitivity to interest rate changes as of December 31:

Expected Maturities (in millions)								Estimated Fair Value
	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>Thereafter</u>	<u>Total</u>	
December 31, 2006:								
Fixed rate debt	\$ 16.4	106.4	16.4	17.4	18.5	475.2	650.3	655.0
Average interest rate	6.1%	6.7%	6.1%	6.1%	6.1%	6.0%	6.1%	—
Variable rate debt	\$ —	—	25.0	—	—	—	25.0	25.0
Average interest rate (as of December 31, 2006)	—	—	6.9%	—	—	—	6.9%	—
	<u>2006</u>	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>Thereafter</u>	<u>Total</u>	<u>Estimated Fair Value</u>
December 31, 2005:								
Fixed rate debt	\$122.8	14.3	104.2	14.0	14.8	380.5	650.6	658.5
Average interest rate	7.2%	6.1%	6.7%	6.0%	6.0%	5.9%	6.3%	—
Variable rate debt	\$ —	64.0	—	—	—	—	64.0	64.0
Average interest rate (as of December 31, 2005)	—	6.6%	—	—	—	—	6.6%	—

We have not engaged extensively in the use of derivatives to manage our interest rate and market risk due to our limited use of variable rate debt.

We financed the acquisition of our Canadian properties with non-recourse fixed rate mortgage loans from a Canadian lender in the original aggregate principal amount of approximately U.S. \$97 million. The loans were made and are payable by us in Canadian dollars, and the rents received from tenants of the properties are payable in Canadian dollars. We also provided a secured mortgage construction loan totaling U.S. \$45.2 million. The loan is payable to us in Canadian dollars. We have partially mitigated the impact of foreign currency exchange risk on our Canadian properties by matching Canadian dollar debt financing with Canadian dollar rents. To further mitigate our risk in 2007, the Company entered into foreign currency forward contracts in December 2006 and January 2007 with notional values of \$12 million Canadian (CAD) and \$9.7 million CAD, respectively. The \$21.7 million CAD in forward contracts have an average exchange rate of \$1.160 CAD per U.S. dollar. These forward contracts should hedge a significant portion of our expected 2007 CAD denominated earnings as their impact on our reported earnings should move in the opposite direction of the exchange rates utilized to translate revenues and expenses of the Canadian properties and mortgage loan. The Company intends to continue hedging a significant portion of its rolling 12 months of expected CAD denominated earnings. To the extent that the Company is unable to hedge a significant portion of its CAD denominated earnings in the future years beyond 2007, a significant change in the exchange rate between the Canadian and U.S. dollar could have a significant impact on our earnings.

See Note 11 to the consolidated financial statements in this Annual Report on Form 10-K for additional information on our derivative financial instruments and hedging activities.

**Report of Independent Registered Public Accounting Firm**

The Board of Trustees  
Entertainment Properties Trust:

We have audited the accompanying consolidated balance sheets of Entertainment Properties Trust (the Company) as of December 31, 2006 and 2005, and the related consolidated statements of income, changes in shareholders' equity, comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2006. In connection with our audits of the consolidated financial statements, we have also audited the accompanying financial statement schedules listed in the Index at Item 15(2). These consolidated financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Entertainment Properties Trust as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

As discussed in Note 19 to the consolidated financial statements, the Company changed its method of quantifying errors in 2006.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2007 expressed an unqualified opinion on management's assessment of, and the effective operation of, internal control over financial reporting.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

**1. Organization**

**Description of Business**

Entertainment Properties Trust (the Company) is a Maryland real estate investment trust (REIT) organized on August 29, 1997. The Company was formed to acquire and develop megaplex theatres, entertainment retail centers (centers generally anchored by an entertainment component such as a megaplex theatre and containing other entertainment-related properties), and destination recreational and specialty properties. The Company's properties are located in the United States and Canada.

**2. Summary of Significant Accounting Policies**

**Principles of Consolidation**

The consolidated financial statements include the accounts of Entertainment Properties Trust and its subsidiaries, all of which are wholly-owned except for New Roc Associates, LP (New Roc). New Roc was acquired in October 2003 and is 71.4% owned. Minority interest expense related to New Roc was \$34 thousand and \$203 thousand for the years ended December 31, 2005 and 2004, respectively. There was no minority interest expense related to New Roc for the year ended December 31, 2006. Total minority interest in New Roc was \$4.5 million and \$5.2 million at December 31, 2006 and 2005, respectively. All significant inter-company transactions have been eliminated in consolidation.

**Use of Estimates**

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

**Rental Properties**

Rental properties are carried at cost less accumulated depreciation. Costs incurred for the acquisition and development of the properties are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which generally are estimated to be 40 years for buildings and 3 to 25 years for furniture, fixtures and equipment. Tenant improvements, including allowances, are depreciated over the shorter of the base term of the lease or the estimated useful life. Expenditures for ordinary maintenance and repairs are charged to operations in the period incurred. Significant renovations and improvements which improve or extend the useful life of the asset are capitalized and depreciated over their estimated useful life.

The Company applies Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", for the recognition and measurement of impairment of long-lived assets to be held and used. Management reviews a property for impairment whenever events or changes in circumstances indicate that the carrying value of a property may not be recoverable. The review of recoverability is based on an estimate of undiscounted future cash flows expected to result from its use and eventual disposition. If impairment exists due to the inability to recover the carrying value of the property, an impairment loss is recorded to the extent that the carrying value of the property exceeds its estimated fair value.

**Accounting for Acquisitions**

The Company considers the fair values of both tangible and intangible assets acquired or liabilities assumed when allocating the purchase price (plus any capitalized costs incurred during the acquisition). Tangible assets may include land, building, tenant improvements, furniture, fixtures and equipment. Intangible assets or liabilities may include values assigned to in-place leases (including the separate values that may be assigned to above-market and below-market in-place leases), the value of customer relationships, and any assumed financing that is determined to be above or below market terms.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

Most of the Company's rental property acquisitions do not involve in-place leases. In such cases, the cost of the acquisition is allocated to the tangible assets based on recent independent appraisals and management judgment. Because the Company typically executes these leases simultaneously with the purchase of the real estate, no value is ascribed to in-place leases in these transactions.

For rental property acquisitions involving in-place leases, the fair value of the tangible assets is determined by valuing the property as if it were vacant based on management's determination of the relative fair values of the assets. Management determines the "as if vacant" fair value of a property using recent independent appraisals or methods similar to those used by independent appraisers. The aggregate value of intangible assets or liabilities is measured based on the difference between the stated price plus capitalized costs and the property as if vacant.

In determining the fair value of acquired in-place leases, the Company considers many factors. On a lease-by-lease basis, management considers the present value of the difference between the contractual amounts to be paid pursuant to the leases and management's estimate of fair market lease rates. For above market leases, management considers such differences over the remaining non-cancelable lease terms and for below market leases, management considers such differences over the remaining initial lease terms plus any fixed rate renewal periods. The capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. The capitalized below market lease values are amortized to income over the remaining initial lease terms plus any fixed rate renewal periods. Management considers several factors in determining the discount rate used in the present value calculations, including the credit risks associated with the respective tenants. If debt is assumed in the acquisition, the determination of whether it is above or below market is based upon a comparison of similar financing terms for similar rental properties.

The fair value of acquired in-place leases also includes management's estimate, on a lease-by-lease basis, of the present value of the following amounts: (i) the value associated with avoiding the cost of originating the acquired in-place leases (i.e. the market cost to execute the leases, including leasing commissions, legal and other related costs); (ii) the value associated with lost revenue related to tenant reimbursable operating costs estimated to be incurred during the assumed re-leasing period, (i.e. real estate taxes, insurance and other operating expenses); (iii) the value associated with lost rental revenue from existing leases during the assumed re-leasing period; and (iv) the value associated with avoided tenant improvement costs or other inducements to secure a tenant lease. These values are amortized over the remaining initial lease term of the respective leases.

The Company also determines the value, if any, associated with customer relationships considering factors such as the nature and extent of the Company's existing business relationship with the tenants, growth prospects for developing new business with the tenants and expectation of lease renewals. The value of customer relationship intangibles is amortized over the remaining initial lease terms plus any renewal periods.

Management of the Company reviews the carrying value of intangible assets for impairment on an annual basis. Intangible assets consist of the following at December 31 (in thousands):

	<u>2006</u>	<u>2005</u>
In-place leases, net of accumulated amortization of \$3.0 million and \$1.9 million, respectively	\$ 8,673	\$ 9,768
Goodwill	<u>693</u>	<u>693</u>
Total intangible assets, net	<u>\$ 9,366</u>	<u>\$ 10,461</u>

In-place leases, net at December 31, 2006 of approximately \$8.7 million, relate to four entertainment retail centers in Ontario, Canada that were purchased on March 1, 2004 and one entertainment retail center in Burbank, California that was purchased on March 31, 2005. Goodwill at December 31, 2006 and 2005 relates solely to the acquisition of New Roc that was acquired on October 27, 2003. Amortization expense related to in-place leases is

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

computed using the straight-line method and was \$1.1 million, \$1.0 million and \$0.8 million for the years ended December 31, 2006, 2005 and 2004, respectively. The weighted average life for these in-place leases at December 31, 2006 is 8 years.

Future amortization of in-place leases at December 31, 2006 is as follows (in thousands):

	<u>Amount</u>
Year:	
2007	\$ 1,076
2008	1,076
2009	1,068
2010	1,068
2011	1,068
Thereafter	<u>3,317</u>
Total	<u>\$ 8,673</u>

**Deferred Financing Costs**

Deferred financing costs are amortized over the terms of the related long-term debt obligations or mortgage note receivable as applicable.

**Capitalized Development Costs**

The Company capitalizes certain costs that relate to property under development including interest and internal legal personnel costs.

**Operating Segment**

The Company aggregates the financial information of all its properties into one reportable segment because the properties all have similar economic characteristics and provide similar services to similar types and classes of customers.

**Revenue Recognition**

Rents that are fixed and determinable are recognized on a straight-line basis over the minimum terms of the leases. Base rent escalation in those of the Company's leases that are dependent upon increases in the Consumer Price Index (CPI) is recognized when known. Straight-line rent receivable is included in other assets and was \$16.4 million and \$4.7 million at December 31, 2006 and 2005, respectively. In addition, most of the Company's tenants are subject to additional rents if gross revenues of the properties exceed certain thresholds defined in the lease agreements (percentage rents). Percentage rents are recognized at the time when specific triggering events occur as provided by the lease agreements. Percentage rents of \$1.6 million, \$1.9 million and \$2.2 million were recognized in 2006, 2005 and 2004, respectively. Lease termination fees are recognized when the related leases are canceled and the Company has no obligation to provide services to such former tenants. Termination fees of \$4.1 million were recognized during the year ended December 31, 2006. No termination fees were recognized during the year ended December 31, 2005.

In accordance with Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" (SAB 108), the Company increased distributions in excess of net income as of January 1, 2006 by \$7.7 million, and increased rental revenue and net income for the first three quarters of fiscal 2006 by \$1.0 million to reflect an adjustment for the recognition of straight line rent revenues and receivables related to certain leases executed or acquired between 1998 and 2003. See Note 19 for additional information on SAB 108.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

**Allowance for Doubtful Accounts**

Accounts and notes receivable is reduced by an allowance for amounts that may become uncollectible in the future. The Company's receivable balance is comprised primarily of rents and operating cost recoveries due from tenants as well as accrued rental rate increases to be received over the life of the existing leases. The Company's notes receivable are described in Note 17. The Company regularly evaluates the adequacy of its allowance for doubtful accounts. The evaluation primarily consists of reviewing past due account balances and considering such factors as the credit quality of the Company's tenants, historical trends of the tenant and/or other debtor, current economic conditions and changes in customer payment terms. Additionally, with respect to tenants in bankruptcy, the Company estimates the expected recovery through bankruptcy claims and increases the allowance for amounts deemed uncollectible. If the Company's assumptions regarding the collectibility of accounts receivable and notes receivable prove incorrect, the Company could experience write-offs of the accounts receivable, accrued straight-line rents receivable or notes receivable in excess of its allowance for doubtful accounts. The allowance for doubtful accounts was \$1.1 million and \$0.2 million at December 31, 2006 and 2005, respectively.

**Mortgage Notes and Related Accrued Interest Receivable**

Mortgage notes and related accrued interest receivable consists solely of loans originated by the Company and the related accrued and unpaid interest income as of the balance sheet date. Mortgage notes receivable are initially recorded at the amount advanced to the borrower and the Company defers certain loan origination and commitment fees, net of certain origination costs, and amortizes them over the term of the related loan. The Company evaluates the collectibility of both interest and principal of each of its loans to determine whether it is impaired. A loan is considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the existing contractual terms. When a loan is considered to be impaired, the amount of loss is calculated by comparing the recorded investment to the value determined by discounting the expected future cash flows at the loan's effective interest rate or to the value of the underlying collateral if the loan is collateralized. Interest income on performing loans is accrued as earned. Interest income on impaired loans is recognized on a cash basis.

**Income Taxes**

The Company operates in a manner intended to enable it to qualify as a REIT under the Internal Revenue Code (the Code). A REIT which distributes at least 90% of its taxable income to its shareholders each year and which meets certain other conditions is not taxed on that portion of its taxable income which is distributed to its shareholders. The Company intends to continue to qualify as a REIT and distribute substantially all of its taxable income to its shareholders.

In 2004, the Company acquired certain real estate operations that are subject to income tax in Canada. Also in 2004, the Company formed certain taxable REIT subsidiaries, as permitted under the Code, through which it conducts certain business activities. The taxable REIT subsidiaries are subject to federal and state income taxes on their net taxable income. Temporary differences between income for financial reporting purposes and taxable income for the Canadian operations and the taxable REIT subsidiaries relate primarily to depreciation, amortization of deferred financing costs and straight line rents. As of December 31, 2006 and 2005, respectively, the Canadian operations and the taxable REIT subsidiaries had deferred tax assets totaling approximately \$6.1 million and \$3.0 million and deferred tax liabilities totaling approximately \$2.4 million and \$1.6 million. As there is no assurance that the Canadian operations and the taxable REIT subsidiaries will generate taxable income in the future beyond the reversal of temporary taxable differences, the deferred tax assets have been offset by a valuation allowance such that there is no net deferred tax asset at December 31, 2006 and 2005. Furthermore, the Company qualified as a REIT and distributed the necessary amount of taxable income. Accordingly, no provision for income taxes was recorded for the years ended December 31, 2006, 2005 or 2004.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

Earnings and profits, which determine the taxability of distributions to shareholders, may differ from that reported for income tax reporting purposes due primarily to differences in the basis of the Company's assets and the estimated useful lives used to compute depreciation.

**Concentrations of Risk**

American Multi-Cinema, Inc. (AMC) is the lessee of a substantial portion (53%) of the megaplex theatre rental properties held by the Company (including joint venture properties) at December 31, 2006 as a result of a series of sale leaseback transactions pertaining to a number of AMC megaplex theatres. A substantial portion of the Company's rental revenues (approximately \$92.9 million or 55%, \$82.1 million or 57%, and \$74.8 million or 60% for the years ended December 31, 2006, 2005 and 2004, respectively) result from the rental payments by AMC under the leases, or its parent, AMC Entertainment, Inc. (AMCE), as the guarantor of AMC's obligations under the leases. AMCE has publicly held debt and accordingly, its consolidated financial information is publicly available.

For the years ended December 31, 2006, 2005 and 2004, respectively, approximately \$32.5 million, or 16.6%, \$28.2 million, or 17.1%, and \$19.3 million, or 14.5%, of total revenue was derived from the Company's four entertainment retail centers in Ontario, Canada. For the years ended December 31, 2006 and 2005, respectively, approximately \$41.4 million, or 21.2%, and \$31.8 million, or 19.3%, of our total revenue was derived from the Company's four entertainment retail centers in Ontario, Canada combined with the mortgage financing interest related to the Company's mortgage note receivable held in Canada and initially funded on June 1, 2005 (see Note 15).

**Cash Equivalents**

Cash equivalents include bank demand deposits and shares of highly liquid institutional money market mutual funds for which cost approximates market value.

**Restricted Cash**

Restricted cash represents deposits required in connection with debt service, payment of real estate taxes and capital improvements.

**Share-Based Compensation**

Share based compensation expense consists of share option expense, amortization of restricted share grants and shares issued to trustees for payment of their annual retainers. Share based compensation is included in general and administrative expense in the accompanying consolidated statements of income, and totaled \$4.9 million, \$2.0 million and \$1.6 million for the years ended December 31, 2006, 2005 and 2004 respectively.

*Share Options*

During 2004, the Financial Accounting Standards Board revised Statement of Financial Accounting Standard (SFAS) No. 123 "Accounting for Stock-Based Compensation." The Company was required to adopt SFAS No. 123R, "Share-Based Payment," beginning January 1, 2006. In compliance with this standard, the Company has recorded share-based compensation expense in the current year related to all options for employees and trustees. The fair value of share options granted under the Company's Share Incentive Plan is determined using the Black-Scholes model. Prior to 2006, the Company accounted for share options granted under the Share Incentive Plan using the fair value recognition provisions of SFAS No. 123 for all awards granted, modified, or settled after January 1, 2003. Prior to January 1, 2003, the Company accounted for share options issued under the Share Incentive Plan under APB Opinion No. 25 "Accounting for Stock Issued to Employees," and, accordingly, recognized no expense for options granted to employees and trustees. Awards under the Company's plan vest either immediately or up to a period of 5 years. Share option expense for all options is recognized on a straight-line basis over the vesting period, except for those unvested options held by a retired executive discussed in Note 18 below which were fully expensed in 2006.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

The expense related to share options included in the determination of net income for the years ended December 31, 2006, 2005 and 2004 was \$829 thousand (including \$522 thousand in expense recognized related to unvested share options held by a retired executive discussed in Note 18 below), \$145 thousand and \$116 thousand, respectively. The expense related to share options included in the determination of net income for the years ended December 31, 2005 and 2004 was less than that which would have been recognized if the fair value based method had been applied to all awards (as required in SFAS No. 123R). If the fair value based method had been applied to all outstanding and unvested awards for the years ended December 31, 2005 and 2004, total share option expense would have been \$221 thousand and \$241 thousand, respectively. This difference in expense had no material impact on either reported basic or reported diluted earnings per share for the years ended December 31, 2005 and 2004.

The fair value for all awards has been estimated at the date of grant using the Black-Scholes option pricing model with the following assumptions: risk-free interest rate of 4.8% to 5.0% in 2006 and 4.0% in both 2005 and 2004, dividend yield of 5.8% in 2006 and 6.0% in both 2005 and 2004, volatility factors in the expected market price of the Company's common shares of 21.1% in 2006, 20.7% in 2005 and 14.1% in 2004; and an expected life of eight years.

*Restricted Shares*

The Company grants restricted shares to employees pursuant to both its Annual Incentive Plan and its Share Incentive Plan. Historically, awards granted pursuant to the Annual Incentive Plan have allowed employees the choice to receive their bonuses either in cash or restricted shares. If an employee elected to receive restricted shares, the employee received a premium over the corresponding cash amount (25% or 50%) and the shares would vest over the following three years. In years prior to 2006, most of the value of bonus awards issued pursuant to the Annual Incentive Plan went to employees who elected to receive restricted shares. Consistent with the accounting for restricted shares issued pursuant to the Share Incentive Plan, which vest over periods of three to five years, the Company has historically amortized the expense related to restricted shares issued pursuant to the Annual Incentive Plan on a straight-line basis over the future vesting period.

Because employees can require awards under the Annual Incentive Plan to be settled in cash, the Company has determined that such awards should be expensed in the period earned rather than over the future vesting period, even if such employees elect to take their bonuses in restricted shares. It was also determined that any premium awarded under the restricted share alternative should continue to be amortized over the future vesting period consistent with the Company's past practice. As a result, the Company recognized additional expense of \$1.7 million in the year ended December 31, 2006 for unvested awards from prior years related to the Annual Incentive Plan. This additional expense represents \$0.07 per basic common share and \$0.06 per fully diluted common share for the year ended December 31, 2006. The Company has concluded that the amounts not expensed in prior periods are immaterial to those financial statements on both a quantitative and qualitative basis. The impact of this additional expense is also immaterial to the consolidated statement of income for the year ended December 31, 2006, and accordingly, the additional expense was recorded in the current year.

Total expense recognized related to all restricted shares awarded to employees was \$3.9 million (including the \$1.7 million discussed above and \$852 thousand related to the retired executive discussed in Note 18), \$1.7 million and \$1.4 million for the years ended December 31, 2006, 2005 and 2004, respectively.

*Shares Issued to Trustees*

The Company issues shares to Trustees for payment of their annual retainers. Total expense recognized related to shares issued to Trustees was \$161 thousand, \$119 thousand and \$107 thousand for the years ended December 31, 2006, 2005 and 2004, respectively.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

**Foreign Currency Translation**

The Company accounts for the operations of its Canadian properties and mortgage note in Canadian dollars. The assets and liabilities related to the Company's Canadian properties and mortgage note are translated into U.S. dollars at current exchange rates; revenues and expenses are translated at average exchange rates. Resulting translation adjustments are recorded as a separate component of comprehensive income.

**Derivatives Instruments**

The Company acquired certain derivative instruments during 2006 to reduce exposure to fluctuations in foreign currency exchange rates. The Company has established policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. These derivatives consist of foreign currency forward contracts and have been designated as cash flow hedges.

The Company measures its derivative instruments at fair value and records them in the Consolidated Balance Sheets as assets or liabilities. The effective portions of changes in fair value of cash flow hedges are reported in Other Comprehensive Income (OCI) and subsequently reclassified into earnings when the hedged item affects earnings. Changes in the fair value of foreign currency hedges that are designated and effective as net investment hedges are included in the cumulative translation component of OCI to the extent they are economically effective and subsequently reclassified to earnings when the hedged investments are sold or otherwise disposed of.

**Reclassifications**

Certain reclassifications have been made to the prior period amounts to conform to the current period presentation.

**3. Rental Properties**

The following table summarizes the carrying amounts of rental properties as of December 31, 2006 and 2005 (in thousands):

	<u>2006</u>	<u>2005</u>
Buildings and improvements	\$ 1,189,676	1,068,569
Furniture, fixtures & equipment	8,147	5,240
Land	<u>339,716</u>	<u>322,865</u>
	1,537,539	1,396,674
Accumulated depreciation	<u>(141,636)</u>	<u>(112,686)</u>
Total	<u>\$ 1,395,903</u>	<u>1,283,988</u>

Depreciation expense on rental properties was \$29.1 million, \$25.9 million and \$22.3 million for the years ended December 31, 2006, 2005 and 2004, respectively.

**4. Unconsolidated Real Estate Joint Ventures**

At December 31, 2006, the Company had a 20% investment interest in each of two unconsolidated real estate joint ventures, Atlantic-EPR I and Atlantic-EPR II. The Company accounts for its investment in these joint ventures under the equity method of accounting.

The Company recognized income of \$464, \$437 and \$410 (in thousands) from its investment in the Atlantic-EPR I joint venture during 2006, 2005 and 2004, respectively. The Company also received distributions from Atlantic-EPR I of \$533, \$511 and \$512 (in thousands) during 2006, 2005 and 2004, respectively. Condensed financial

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

information for Atlantic-EPR I is as follows as of and for the years ended December 31, 2006, 2005 and 2004 (in thousands):

	<u>2006</u>	<u>2005</u>	<u>2004</u>
Rental properties, net	\$29,245	29,889	30,533
Cash	141	141	141
Long-term debt	16,146	16,470	16,768
Partners' equity	13,134	13,452	13,790
Rental revenue	4,239	4,156	4,077
Net income	2,170	2,063	1,949

The Atlantic-EPR II joint venture was formed on March 1, 2004. The Company recognized income of \$295, \$291 and \$244 (in thousands) from its investment in this joint venture during 2006, 2005 and 2004, respectively. The Company also received distributions from Atlantic-EPR II of \$341, \$344 and \$299 (in thousands) during 2006, 2005 and 2004, respectively. Condensed financial information for Atlantic-EPR II is as follows as of and for the years ended December 31, 2006, 2005 and 2004 (in thousands):

	<u>2006</u>	<u>2005</u>	<u>2004</u>
Rental properties, net	\$22,880	23,341	23,802
Cash	68	114	103
Long-term debt	13,877	14,149	14,405
Note payable to Entertainment Properties Trust	117	117	117
Partners' equity	8,789	8,984	9,192
Rental revenue	2,778	2,778	2,377
Net income	1,287	1,280	1,046

The joint venture agreements for Atlantic-EPR I and Atlantic-EPR II allow the Company's partner, Atlantic of Hamburg, Germany (Atlantic), to exchange up to a maximum of 10% of its ownership interest per year in each of the joint ventures for common shares of the Company or, at the discretion of the Company, the cash value of those shares as defined in each of the joint venture agreements.

#### **5. Consolidated Real Estate Joint Venture**

The Company acquired a 71.4% ownership interest in New Roc Associates, LP (New Roc) on October 27, 2003 in exchange for cash of \$25 million. New Roc owns an entertainment retail center encompassing 446 thousand square feet located in New Rochelle, New York. The results of New Roc's operations have been included in the consolidated financial statements since the date of acquisition.

As detailed in the limited partnership agreement, income or loss is allocated as follows: first, to the Company to allow its capital account to equal its cumulative preferred return of 10.142% of its original limited partnership investment, or \$2.5 million per year; second, to the Company's partner in New Roc, LRC Industries L.T.D. (LRC), to allow its capital account to equal its cumulative preferred return of 8% of its original limited partnership investment, or \$1.0 million per year; third, as necessary to cause the capital account balance of the Company to equal the sum of its cumulative preference amount plus its invested capital; fourth, as necessary to cause the capital account balance of LRC to equal the sum of its cumulative preference amount plus its invested capital; fifth, after giving effect to the above, among the partners as necessary to cause the portion of each partner's capital account balance exceeding such partner's total preference amount to be in proportion to the partners' then respective ownership interests; and sixth, any balance among the partners in proportion to their then respective ownership interests. The Company's consolidated statements of income include net income related to New Roc of \$1.9 million for the year ended December 31, 2006 and \$2.5 million for each of the years ended December 31, 2005 and 2004.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

As described in Note 17, the Company also had a \$5 million note receivable from LRC at December 31, 2006 and 2005.

As detailed in the limited partnership agreement, cash flow is distributed as follows: first, to the Company to allow for a preferred return of 10.142% of its original limited partnership investment, or \$2.5 million per year, less a prorata share of capital expenditures; second, to LRC to allow for a preferred return of 8% of its original limited partnership investment, or \$800 thousand per year, less a prorata share of capital expenditures; third, in proportion to the partners' ownership interests for any undistributed capital expenditures; and fourth, until all current year distributions and the amount of debt service payments equals \$8.9 million (the Trigger Level), cash flow shall be distributed 85% to the Company and 15% to LRC. After the Trigger Level has been reached for the applicable fiscal year, cash flow shall be distributed 60% to the Company and 40% to LRC. The Company received distributions from New Roc of \$2.3 million, \$2.7 million and \$1.9 million during 2006, 2005 and 2004, respectively.

At any time after March 8, 2007, LRC has the right to exchange its interest in New Roc for common shares of the Company or the cash value of those shares, at the Company's option, as long as the net operating income (NOI) of New Roc during the preceding 12 months exceeds \$8.9 million, and certain other conditions are met. The number of common shares of the Company issuable to LRC would equal 75% of LRC's capital in New Roc (up to 100% if New Roc's NOI is between \$8.9 million and \$10.0 million), divided by the greater of the Company's book value per share or the average closing price of the Company's common shares. New Roc's NOI was approximately \$8.3 million for the year ended December 31, 2006 and LRC's capital in New Roc was approximately \$4.5 million.

**6. Operating Leases**

The Company's rental properties are leased under operating leases with expiration dates ranging from 3 to 25 years. Future minimum rentals on non-cancelable tenant leases at December 31, 2006 are as follows (in thousands):

	<u>Amount</u>
Year:	
2007	\$ 165,177
2008	165,107
2009	165,216
2010	164,616
2011	151,049
Thereafter	<u>1,166,110</u>
Total	<u>\$1,977,275</u>

The Company leases its executive office from an unrelated landlord and such lease expires in December, 2009. Rental expense for this lease totaled approximately \$206 thousand, \$200 thousand and \$195 thousand in 2006, 2005 and 2004, respectively, and is included as a component of general and administrative expense in the accompanying consolidated statements of income. Future minimum lease payments under this lease at December 31, 2006 are as follows (in thousands):

	<u>Amount</u>
Year:	
2007	\$ 209
2008	214
2009	<u>220</u>
Total	<u>\$ 643</u>

**ENTERTAINMENT PROPERTIES TRUST**

Other	<u>4,000</u>	<u>4,000</u>
Total	<u>\$675,305</u>	<u>714,591</u>

(1) The Company's unsecured revolving credit facility is due January 31, 2009. There was \$25.0 million outstanding on the \$235 million unsecured revolving credit facility at December 31, 2006. The note required monthly payments of interest with the outstanding principal due at maturity. At December 31, 2006, the principal amounts were bearing interest at LIBOR plus 150 basis points (6.875% at December 31, 2006).

(2) The Company's secured revolving credit facility due March 29, 2007 was secured by fourteen theatre properties, two theatre and retail mix properties and one retail mix property, which had a net book value of approximately \$208.8 million at December 31, 2005. There was \$64.0 million outstanding on the \$150 million secured revolving credit facility at December 31, 2005. The note required monthly payments of interest with the outstanding principal due at maturity. At December 31, 2005, the principal amounts were bearing interest at LIBOR plus 225 basis points (6.59% at December 31, 2005). As described in Note 16, the Company's credit facility was amended and restated in January of 2006, and converted to an unsecured credit facility (see (1) above).

(3) The Company's mortgage notes payable due February 10, 2006 were secured by nine theatre properties, which had a net book value of approximately \$175.4 million at December 31, 2005, and by \$6.5 million in cash escrow deposits. The escrow deposits are recorded as restricted cash in the accompanying consolidated balance sheets at December 31, 2005. The escrow deposits were required by the terms of the mortgage notes and were available to pay debt service on the mortgage notes if certain triggering events occurred, or they were to be applied to the principal amount at maturity. The notes required monthly principal and interest payments of approximately \$1.0 million with a final principal payment at maturity of approximately \$109.0 million. The notes were paid in full at maturity on February 10, 2006.

(4) The Company's mortgage note payable due July 11, 2028 is secured by eight theatre properties, which had a net book value of approximately \$132.4 million at December 31, 2006. The note had an initial balance of \$105.0 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately \$689 thousand. This mortgage agreement contains a "hyper-amortization" feature, in which the principal payment schedule is rapidly accelerated, and our principal payments are

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

substantially increased, if we fail to pay the balance of approximately \$89.9 million on the anticipated prepayment date of July 11, 2008.

(5) The Company's mortgage note payable due June 15, 2018 is secured by one theatre property, which had a net book value of approximately \$21.0 million at December 31, 2006. The note had an initial balance of \$18.9 million and the monthly payments are based on a 20 year amortization schedule. The notes require monthly principal and interest payments of approximately \$151 thousand with a final principal payment at maturity of approximately \$843 thousand.

(6) The Company's mortgage notes payable due February 10, 2013 are secured by fourteen theatre properties, which had a net book value of approximately \$222.0 million at December 31, 2006. The notes had an initial balance of \$155.5 million of which approximately \$98.6 million has monthly payments that are interest only and \$56.9 million has monthly payments based on a 10 year amortization schedule. The notes require monthly principal and interest payments of approximately \$1.1 million with a final principal payment at maturity of approximately \$99.2 million. The weighted average interest rate on these notes is 5.57%.

(7) The Company's mortgage note payable due March 1, 2014 is secured by four theatre and retail mix properties in Ontario, Canada, which had a net book value of approximately \$178.9 million at December 31, 2006. The mortgage note payable is denominated in Canadian dollars (CAD). The note had an initial balance of CAD \$128.6 million and the monthly payments are based on a 20 year amortization schedule. The note requires monthly principal and interest payments of approximately CAD \$977 thousand with a final principal payment at maturity of approximately CAD \$85.6 million. At December 31, 2006 and 2005, the outstanding balance in Canadian dollars was CAD \$119.4 million and CAD \$126.6 million, respectively.

(8) The Company's mortgage note payable due April 1, 2014 is secured by one theatre and retail mix property, which had a net book value of approximately \$93.4 million at December 31, 2006. The note had an initial balance of \$66.0 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately \$378 thousand with a final principal payment at maturity of approximately \$55.3 million.

(9) The Company's mortgage note payable due June 5, 2015 is secured by one theatre and retail mix property, which had a net book value of approximately \$50.1 million at December 31, 2006. The note had an initial balance of \$36.0 million and the monthly payments are based on a 30 year amortization schedule. The note requires monthly principal and interest payments of approximately \$206 thousand with a final principal payment at maturity of approximately \$30.1 million.

(10) The Company's mortgage notes payable due November 6, 2015 are secured by six theatre properties, which had a net book value of approximately \$88.1 million at December 31, 2006. The notes had an initial balance of \$79.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$498 thousand with a final principal payment at maturity of approximately \$60.8 million.

(11) The Company's mortgage notes payable due March 6, 2016 are secured by two theatre properties, which had a net book value of approximately \$38.5 million at December 31, 2006. The notes had an initial balance of \$44.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$279 thousand with a final principal payment at maturity of approximately \$33.9 million.

(12) The Company's mortgage notes payable due June 30, 2016 are secured by two theatre properties, which had a net book value of approximately \$37.0 million at December 31, 2006. The notes had an initial balance of \$31.0 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$207 thousand with a final principal payment at maturity of approximately \$24.4 million.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

(13) The Company's mortgage notes payable due October 1, 2016 are secured by four theatre properties, which had a net book value of approximately \$31.3 million at December 31, 2006. The notes had an initial balance of \$27.8 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$180 thousand with a final principal payment at maturity of approximately \$21.6 million.

(14) The Company's mortgage notes payable due October 6, 2016 are secured by three theatre properties, which had a net book value of approximately \$22.7 million at December 31, 2006. The notes had an initial balance of \$20.9 million and the monthly payments are based on a 25 year amortization schedule. The notes require monthly principal and interest payments of approximately \$135 thousand with a final principal payment at maturity of approximately \$16.2 million.

Certain of the Company's long-term debt agreements contain customary restrictive covenants related to financial and operating performance. At December 31, 2006, the Company was in compliance with all restrictive covenants.

Principal payments due on long term debt obligations subsequent to December 31, 2006 are as follows (in thousands):

	<u>Amount</u>
Year:	
2007	\$ 16,446
2008	106,458
2009	41,360
2010	17,376
2011	18,455
Thereafter	<u>475,210</u>
Total	<u>\$675,305</u>

The Company capitalizes a portion of interest costs as a component of property under development. The following is a summary of interest expense, net for the years ended December 31, 2006, 2005 and 2004 (in thousands):

	<u>2006</u>	<u>2005</u>	<u>2004</u>
Interest on credit facility and mortgage loans	\$46,176	40,159	37,607
Amortization of deferred financing costs	2,713	3,345	3,299
Credit facility and letter of credit fees	203	699	772
Interest cost capitalized	(100)	(160)	(688)
Interest income	<u>(1,554)</u>	<u>(1,616)</u>	<u>(2,936)</u>
Interest expense, net	<u>\$47,438</u>	<u>42,427</u>	<u>38,054</u>

#### **8. Share Incentive Plan**

The Company maintains a Share Incentive Plan under which an aggregate of 3,000,000 common shares and options to purchase common shares, subject to adjustment in the event of certain capital events, may be granted. At December 31, 2006, there were 1,241,675 shares available for grant under the Share Incentive Plan.

#### **Share Options**

Share options issued under the Share Incentive Plan have exercise prices equal to the fair market value of a common share at the date of grant. The options may be granted for any reasonable term, not to exceed 10 years, and typically become exercisable at a rate of 20% per year over a five — year period. For trustees, share options become

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

exercisable over a one-year period. The Company generally issues new common shares upon option exercise. A summary of the Company's share option activity and related information is as follows:

	<u>Number of Shares</u>	<u>Option Price Per Share</u>	<u>Weighted Average Exercise Price</u>
Outstanding at			
December 31, 2003	1,007,943	14.00 – 27.43	19.67
Exercised	(178,353)	14.13 – 26.87	16.22
Granted	<u>151,087</u>	32.50 – 39.80	36.41
Outstanding at			
December 31, 2004	980,677	\$14.00 – \$39.80	\$22.99
Exercised	(215,137)	14.13 – 34.26	19.57
Granted	<u>124,636</u>	41.65 – 43.75	42.27
Outstanding at			
December 31, 2005	890,176	\$14.00 – \$43.75	\$26.52
Exercised	(16,326)	16.05 – 41.65	18.77
Granted	<u>107,823</u>	40.55 – 42.46	41.86
Outstanding at			
December 31, 2006	<u>981,673</u>	\$14.00 – \$43.75	\$28.33

The weighted average fair value of options granted was \$5.19, \$3.47 and \$1.18 during 2006, 2005 and 2004, respectively. At December 31, 2006, stock-option expense to be recognized in future periods was \$648 thousand.

The following table summarizes outstanding options at December 31, 2006:

<u>Exercise price range</u>	<u>Options outstanding</u>	<u>Weighted avg. life remaining</u>	<u>Weighted avg. exercise price</u>	<u>Aggregate intrinsic value (in thousands)</u>
\$14.00 – 19.99	218,810	3.67		
20.00 – 29.99	383,565	5.83		
30.00 – 39.99	147,171	7.30		
40.00 – 43.75	<u>232,127</u>	<u>8.92</u>		
	<u>981,673</u>	<u>6.30</u>	\$28.33	\$29,554

The following table summarizes exercisable options at December 31, 2006:

<u>Exercise price range</u>	<u>Options exercisable</u>	<u>Weighted avg. life remaining</u>	<u>Weighted avg. exercise price</u>	<u>Aggregate intrinsic value (in thousands)</u>
\$14.00 – 19.99	216,810	3.66		
20.00 – 29.99	225,195	5.69		
30.00 – 39.99	85,020	7.32		
40.00 – 43.75	<u>40,861</u>	<u>8.60</u>		
	<u>567,886</u>	<u>5.37</u>	\$23.77	\$19,691

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

**Restricted Shares**

A summary of the Company's restricted share activity and related information is as follows:

	<u>Number of Shares</u>	<u>Weighted Average Grant Date Fair Value</u>	<u>Weighted Average Life Remaining</u>
Outstanding at			
December 31, 2005	140,133	\$35.32	
Granted	83,205	41.36	
Vested	<u>(53,784)</u>	31.49	
Outstanding at			
December 31, 2006	<u>169,554</u>	39.50	1.25

The holders of restricted shares have voting rights and receive dividends from the date of grant. These shares vest ratably over a period of three to five years. At December 31, 2006, unamortized share-based compensation expense related to non-vested restricted shares was \$2.9 million.

**9. Related Party Transactions**

In 2000, the Company loaned an aggregate of \$3.5 million to Company executives. The loans were made in order for the executives to purchase common shares of the Company at the market value of the shares on the date of the loan, as well as to repay borrowings on certain amounts previously loaned. The loans are recourse to the executives' assets and bear interest at 6.24%, are due on January 1, 2011 and interest is payable at maturity. Interest income from these loans totaled \$347 thousand, \$327 thousand and \$307 thousand for the years ended December 31, 2006, 2005 and 2004, respectively. These loans were issued with terms that include a Loan Forgiveness Program, under which the compensation committee of the Board of Trustees may forgive a portion of the above referenced indebtedness after application of proceeds from the sale of shares, following a change in control of the Company. The compensation committee may also forgive the debt incurred upon termination of employment by reason of death, disability, normal retirement or without cause. At December 31, 2006 and 2005, accrued interest receivable on these loans, included in other assets in the accompanying consolidated balance sheets, was \$2.4 million and \$2.0 million, respectively.

The Company loaned \$5 million to its New Roc minority joint venture partner in 2003 in connection with the acquisition of its interest in New Roc. See Note 17 for additional information on this note.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

**10. Earnings Per Share**

The following table summarizes the Company's common shares used for computation of basic and diluted earnings per share for the years ended December 31, 2006, 2005 and 2004 (amounts in thousands except per share information):

	<b>Year Ended December 31, 2006</b>		
	<b>Income (numerator)</b>	<b>Shares (denominator)</b>	<b>Per Share Amount</b>
Basic earnings:			
Income available to common shareholders	\$70,432	26,147	\$ 2.69
Effect of dilutive securities:			
Stock options	—	372	(0.03)
Non-vested common share grants	—	108	(0.01)
Diluted earnings	<u>\$70,432</u>	<u>26,627</u>	<u>\$ 2.65</u>

	<b>Year Ended December 31, 2005</b>		
	<b>Income (numerator)</b>	<b>Shares (denominator)</b>	<b>Per Share Amount</b>
Basic earnings:			
Income available to common shareholders	\$57,707	25,019	\$ 2.31
Effect of dilutive securities:			
Stock options	—	345	(0.03)
Non-vested common share grants	—	140	(0.02)
Diluted earnings	<u>\$57,707</u>	<u>25,504</u>	<u>\$ 2.26</u>

	<b>Year Ended December 31, 2004</b>		
	<b>Income (numerator)</b>	<b>Shares (denominator)</b>	<b>Per Share Amount</b>
Basic earnings:			
Income available to common shareholders	\$48,250	22,721	\$ 2.12
Effect of dilutive securities:			
Stock options	—	383	(0.03)
Contingent shares from conversion of minority interest	750	429	(0.01)
Non-vested common share grants	—	131	(0.01)
Diluted earnings	<u>\$49,000</u>	<u>23,664</u>	<u>\$ 2.07</u>

The additional common shares that would result from the conversion of the Company's Series C convertible preferred shares, issued on December 22, 2006, and the corresponding add-back of the preferred dividends declared on those shares are not included in the calculation of diluted earnings per share for the year ended December 31, 2006 because the effect is antidilutive.

**11. Derivative Instruments**

In 1998, the Company entered into a forward contract in connection with a mortgage note payable due July 2028 to essentially fix the base rate of interest on a notional amount of \$105 million. Because of a hyper-amortization

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

feature on this note, as further described in Note 7, it is anticipated that this note will be paid in full prior to maturity in July, 2008, the optional prepayment date. The forward contract settled on June 29, 1998, the closing date of the long-term debt issuance, and the Company incurred a loss of \$1.4 million, which is being amortized as an increase to interest expense over the anticipated ten year term of the long-term debt resulting in an effective interest rate of 6.84%. The remaining unamortized amount of \$263 thousand and \$434 thousand is included in other assets in the accompanying 2006 and 2005 consolidated balance sheets, respectively. Additionally, for the years end December 31, 2006 and 2005, the Company has no other activity related to interest rate derivatives.

The Company is exposed to the effect of changes in foreign currency exchange rate fluctuations. The Company limits this risk by following established risk management policies and procedures including the use of derivatives. The Company's objective in using derivatives is to add stability to reported earnings and to manage its exposure to foreign exchange movements or other identified risks. To accomplish this objective, the Company primarily uses foreign currency forwards as part of a cash flow hedging strategy. Foreign currency forwards designated as cash flow hedges involve the exchange of Canadian dollars (CAD) for U.S. dollars at the maturity of the agreements at rates that were set on the hedge trade dates. During December, 2006, the Company entered into foreign currency forward contracts with an aggregate notional value of \$12 million CAD (with rates ranging from 1.146 to 1.155 CAD per U.S. dollar) to hedge a portion of the Canadian cash flows. These transactions are expected to occur on twelve forward settlement dates between January, 2007 and December, 2007.

At December 31, 2006, all of the Company's foreign currency derivatives were designated as cash flow hedges. At December 31, 2006, foreign currency derivatives with a fair value of \$72 thousand were included in other assets. The unrealized gain on those derivatives of \$72 thousand in 2006 is recorded in the consolidated statements of changes in shareholders' equity and comprehensive income. No hedge ineffectiveness on cash flow hedges was recognized during 2006.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to earnings as payments are made and received on the hedged Canadian cash flows. During 2007, the Company estimates that \$72 thousand will be reclassified from other comprehensive income to earnings.

**12. Fair Value of Financial Instruments**

Management compares the carrying value and the estimated fair value of our financial instruments. The following methods and assumptions were used by the Company to estimate the fair value of each class of financial instruments at December 31, 2006 and 2005:

**Mortgage notes receivable and related accrued interest receivable:**

At December 31, 2006, the Company had mortgage notes receivable with a carrying value, including related accrued interest, of \$76.1 million. The mortgage notes bear interest at 9% to 15% and their carrying value approximates fair value.

At December 31, 2005, the Company had a mortgage note receivable with a carrying value, including related accrued interest, of \$44.1 million. The mortgage note bears interest at 15% and its carrying value approximates fair value.

**Cash and cash equivalents, restricted cash:**

Due to the highly liquid nature of our short term investments, the carrying values of our cash and cash equivalents and restricted cash approximate the fair market values.

**Accounts and notes receivable:**

The carrying values of our accounts and notes receivable approximate the fair market value.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

**Foreign Currency Derivatives:**

Foreign currency derivatives are carried at their fair market value.

**Debt Instruments:**

The fair value of the Company's debt as of December 31, 2006 and 2005 is estimated by discounting the future cash flows of each instrument using current market rates. At December 31, 2006 and 2005, the Company had a carrying value of \$25.0 million and \$64.0 million, respectively, in variable rate debt outstanding, which management believes represents fair value.

At December 31, 2006, the Company had a carrying value of \$650.3 million in fixed rate long-term debt outstanding with an average weighted interest rate of approximately 6.1%. Discounting the future cash flows for fixed rate debt using an estimated market rate of 5.91%, management estimates the fixed rate debt's fair value to be approximately \$655.0 million at December 31, 2006.

At December 31, 2005, the Company had a carrying value of \$650.6 million in fixed rate long-term debt outstanding with an average weighted interest rate of approximately 6.3%. Discounting the future cash flows for fixed rate debt using an estimated market rate of 5.75%, management estimates the fixed rate debt's fair value to be approximately \$658.5 million at December 31, 2005.

**Accounts payable and accrued liabilities:**

The carrying value of accounts payable and accrued liabilities approximates fair value due to the short term maturities of these amounts.

**Common and preferred dividends payable:**

The carrying values of common and preferred dividends payable approximate fair value due to the short term maturities of these amounts.

**13. Quarterly Financial Information (unaudited)**

Summarized quarterly financial data for the years ended December 31, 2006 and 2005 are as follows (in thousands, except per share data):

	<u>March 31</u>	<u>June 30</u>	<u>September 30</u>	<u>December 31</u>
2006:				
Total revenue	\$46,210	51,523	48,683	49,084
Net income	19,041	21,138	20,716	21,394
Net income available to common shareholders	16,125	18,222	17,800	18,285
Basic net income per common share	0.63	0.69	0.68	0.70

Net income available to common shareholders	13,207	14,406	14,898	15,196
Basic net income per common share	0.53	0.58	0.59	0.61
Diluted net income per common share	0.52	0.57	0.58	0.60

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

The quarterly financial information for the periods ended March 31, June 30, and September 30, 2006 are different than as previously presented in the Company's interim financial statements due to the implementation of SAB 108 as described in Note 19. Such implementation increased previously reported total revenue and net income by \$343 thousand (\$0.01 per share) for each of the periods then ended.

**14. Common and Preferred Shares**

**Common Shares**

The Board of Trustees declared cash dividends totaling \$2.75 per common share for the year ended December 31, 2006 and \$2.50 per common share for the year ended December 31, 2005.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and capital gain for 2006 and 2005 are as follows:

Cash dividends paid per common share for the year ended December 31, 2006:

<u>Record date</u>	<u>Cash payment date</u>	<u>Cash distribution per share</u>	<u>Taxable ordinary income</u>	<u>Return of capital</u>	<u>Long-term capital gain</u>

		100.0%	82.4%	17.6%	—

On February 8, 2006, the Company issued 1.0 million common shares at \$41.25 per share in a registered public offering. The underwriter of this offering subsequently exercised an option to purchase an additional 150 thousand common shares at \$41.25 per share which closed on February 15, 2006. Total net proceeds to the Company after expenses were approximately \$46.2 million.

**Series A Preferred Shares**

On May 29, 2002, the Company issued 2.3 million 9.50% Series A cumulative redeemable preferred shares ("Series A preferred shares") in a registered public offering. The Company may not redeem the Series A preferred shares, which have a \$25 liquidation preference per share, before May 29, 2007, except in limited circumstances to preserve the Company's REIT status. On or after May 29, 2007, the Company may, at its option, redeem the Series A

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**

preferred shares in whole at any time or in part from time to time, by paying \$25 per share, plus any accrued and unpaid dividends up to and including the date of redemption. The Series A preferred shares generally have no stated maturity, are not subject to any sinking fund or mandatory redemption, and are not convertible into any of the Company's other securities. The Board of Trustees declared cash dividends totaling \$2.375 per Series A preferred share for each of the years ended December 31, 2006 and 2005.

Of the total dividends calculated for tax purposes, the amounts characterized as ordinary income, return of capital and capital gain for 2006 and 2005 are as follows:

Cash dividends paid per Series A preferred share for the year ended December 31, 2006:

**Series B Preferred Shares**

On January 19, 2005, the Company issued 3.2 million 7.75% Series B cumulative redeemable preferred shares ("Series B preferred shares") in a registered public offering for net proceeds of \$77.5 million, before expenses. The Company pays cumulative dividends on the Series B preferred shares from (and including) the date of original issuance in the amount of \$1.9375 per share each year, which is equivalent to 7.75% of the \$25 liquidation preference per share. Dividends on the Series B preferred shares are payable quarterly in arrears, and began on April 15, 2005. The Company may not redeem the Series B preferred shares before January 19, 2010, except in limited circumstances to preserve the Company's REIT status. On or after January 19, 2010, the Company may, at its option, redeem the Series B preferred shares in whole at any time or in part from time to time, by paying \$25 per share, plus any accrued and unpaid dividends up to and including the date of redemption. The Series B preferred shares generally have no stated maturity, will not be subject to any sinking fund or mandatory redemption, and are not convertible into any of the Company's other securities. Owners of the Series B preferred shares generally have no voting rights, except under certain dividend defaults. The Board of Trustees declared cash dividends totaling \$1.9375 and \$1.35625 per Series B preferred share for the years ended December 31, 2006 and 2005, respectively.

**Series C Convertible Preferred Shares**

On December 22, 2006, the Company issued 5.4 million 5.75% Series C cumulative convertible preferred shares ("Series C preferred shares") in a registered public offering for net proceeds of approximately \$130.8 million, after expenses. The Company will pay cumulative dividends on the Series C preferred shares from the date of original issuance in the amount of \$1.4375 per share each year, which is equivalent to 5.75% of the \$25 liquidation preference per share. Dividends on the Series C preferred shares are payable quarterly in arrears, and will begin on January 15, 2007 with a pro-rated quarterly payment of \$0.035938 per share. The Company does not have the right to redeem the Series C preferred shares except in limited circumstances to preserve the Company's REIT status. The Series C preferred shares have no stated maturity and will not be subject to any sinking fund or mandatory redemption. The Series C preferred shares are convertible, at the holder's option, into the Company's common shares at an initial conversion rate of 0.3504 common shares per Series C preferred share, which is equivalent to an initial conversion price of \$71.34 per common share. This conversion ratio may increase over time upon certain specified triggering events including if the Company's common share dividend exceeds a certain quarterly threshold which will initially be set at \$0.6875 per common share.

Upon the occurrence of certain fundamental changes, the Company will under certain circumstances increase the conversion rate by a number of additional common shares or, in lieu thereof, may in certain circumstances elect to adjust the conversion rate upon the Series C preferred shares becoming convertible into shares of the public acquiring or surviving company.

**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

On or after January 15, 2012, the Company may, at its option, cause the Series C preferred shares to be automatically converted into that number of common shares that are issuable at the then prevailing conversion rate. The Company may exercise its conversion right only if, at certain times, the closing price of the Company's common shares equals or exceeds 135% of the then prevailing conversion price of the Series C preferred shares.

Owners of the Series C preferred shares generally have no voting rights, except under certain dividend defaults. Upon conversion, the Company may choose to deliver the conversion value to the owners in cash, common shares, or a combination of cash and common shares.

The proceeds from this offering were used to pay down the Company's unsecured revolving credit facility described in Note 7. The Board of Trustees declared cash dividends totaling \$0.035938 per Series C preferred share for the year ended December 31, 2006. No cash dividends were paid on Series C preferred shares during the year ended December 31, 2006.

**15. Investment in Mortgage Notes**

On June 1, 2005, a wholly-owned subsidiary of the Company provided a secured mortgage construction loan of \$47 million Canadian (US \$37.5 million) to Metropolis Limited Partnership (the Partnership). The Partnership was formed for the purpose of developing a 13 level entertainment retail center in downtown Toronto, Ontario, Canada. The Partnership consists of the developer of the center as general partner and two limited partner pension funds. It is anticipated that the development will be completed in 2008 at a total cost of approximately \$272 million Canadian, including all capitalized costs, and will contain approximately 360,000 square feet of net rentable area (excluding signage).

This mortgage note receivable bears interest at 15% and has a stated maturity of June 2, 2010. The Partnership has an agreement with a bank to provide a first mortgage construction loan to the Partnership of up to \$106 million Canadian. The bank construction financing is senior to the Company's mortgage note.

In the original loan agreement, no principal or interest payments were due to the Company prior to November 30, 2007, at which time a 25% principal payment was due along with all accrued interest to date (defined as the "Option Due Date Amount"). The Partnership also had an option on November 30, 2007 (the "Option Date") to either pay off the note in full including all accrued interest, without penalty, or to extend the Option Due Date Amount by an additional 12 months, in which case the Option Date would be November 30, 2008. The Partnership could also prepay the note (in full only, including all accrued interest) at any other time with prepayment penalties as defined in the agreement.

On March 3, 2006, the Company invested an additional \$8.7 million Canadian (U.S. \$7.7 million) in this mortgage note receivable and the original mortgage note was amended and restated. No principal or interest payments on the mortgage note receivable are now due prior to May 31, 2008. In addition, the Option Date was changed to May 31, 2008 and the Partnership's extension right was reduced from 12 months to 6 months such that the outside Option Date remains November 30, 2008. The additional \$8.7 million Canadian bears interest at 15% and has a stated maturity of February 9, 2011. If not paid in full by May 31, 2008, interest is payable monthly beginning in June 2008. The Company received a loan origination fee at closing of \$400,000 Canadian which is being amortized as additional mortgage financing interest income over the term of the loan.

On the maturity date or any other date that the Partnership elects to prepay the note in full, the Company has the option to purchase a 50% equity interest in the Partnership or alternative joint venture vehicle that is established. The purchase price stipulated in the option is based on estimated fair market value of the entertainment retail center at the time of exercise, defined as the then existing stabilized net operating income capitalized at a pre-determined rate. A subscription agreement governs the terms of the cash flow sharing with the other partners should the Company elect to become an owner.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

On June 13, 2006, the Company posted two irrevocable standby letters of credit that totaled \$7.4 million (U.S.) for the benefit of the Partnership's first mortgage construction financing lender. These letters of credit expire on June 13, 2007, but they automatically renew each year unless the Partnership's first mortgage construction lender cancels them or the construction loan is paid off. The Company accrues interest income on these outstanding letters of credit at a rate of 12% (15% if drawn upon by the construction lender) and the outstanding balance, with accrued interest, is due from the Partnership on the maturity date of the original mortgage note from the Partnership. The Company has no obligation to fund any additional amounts, and has no guarantees of any kind related to the Partnership's first mortgage construction loan.

The carrying value of the Company's mortgage note receivable at December 31, 2006 and 2005 was US \$60.0 million and US \$44.1 million, respectively, including related accrued interest receivable of US \$12.5 million and US \$3.7 million, respectively. Cost overruns of the project, if any, are the responsibility of the Partnership.

On March 10, 2006, a wholly-owned subsidiary of the Company provided a secured mortgage loan of \$8.0 million to SNH Development, Inc. The secured property is the Crotched Mountain Ski Resort located in Bennington, New Hampshire. The property serves the Boston and Southern New Hampshire markets and has approximately 45 acres of skiing terrain that is serviced by nine lifts. The carrying value of this mortgage note receivable at December 31, 2006 was \$8.1 million, including related accrued interest receivable of \$62 thousand. This loan is guaranteed by Peak Resorts, Inc., which operates the property, and has a maturity date of March 10, 2027. Monthly interest payments are made to the Company and the unpaid principal balance initially bears interest at 9.25% per annum. Annually, this interest rate increases based on a formula dependent in part on increases in the Consumer Price Index (CPI).

Additionally, during the quarter ended December 31, 2006, a wholly-owned subsidiary of the Company provided a secured construction mortgage loan of \$8.0 million to Boardwalk Ventures, LLC, Grand Slidell, LLC and Esplanade Theatres, LLC. The funds from this loan are being used to construct a megaplex theatre property in Louisiana. The carrying value of this mortgage note receivable at December 31, 2006 was \$8.1 million, including related accrued interest receivable of \$55 thousand. The loan is secured by the property under development and guaranteed by VSS-Southern Theatres, LLC, which will operate the property at completion, and has a maturity date of November 9, 2007. Monthly interest payments are made to the Company and the unpaid principal balance bears interest at LIBOR plus 3.5%.

**16. Amendment and Restatement of Credit Facility**

On January 31, 2006, the Company amended and restated its secured revolving credit facility to increase the size of the facility to \$200 million from \$150 million and reduce the interest rate charged on the facility from rates ranging from LIBOR plus 175 to 250 basis points to LIBOR plus 130 to 175 basis points. The facility was also converted from a secured to an unsecured facility. The unsecured revolving credit facility has a three year term expiring in 2009 with a one year extension available at the Company's option. As a result of this amendment and restatement, the Company expensed certain unamortized financing costs, totaling approximately \$673 thousand, in the first quarter of 2006. On June 6, 2006 the size of the facility was increased to \$235 million from \$200 million with no modification to the terms and conditions of the credit agreement.

**17. Notes Receivable**

The Company loaned \$5 million to its New Roc minority joint venture partner in 2003 in connection with the acquisition of its interest in New Roc. This note is included in accounts and notes receivable, bears interest at 10% per year, matures on March 9, 2009, and is secured by the minority partner's interest in the partnership. In February 2004, the Company loaned an additional \$5 million to the minority partner with interest also at 10% per year. This note was paid in full, including all accrued interest, on October 14, 2004. Interest income from these loans totaled \$500 thousand for each of the years ended December 31, 2006 and 2005, and \$954 thousand for the year ended December 31, 2004.

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

The Company also has a note receivable from Mosaica Education, Inc. of \$3.5 million at December 31, 2006. This note is included in accounts and notes receivable, bears interest at 9.23% per year, matures on January 31, 2008, and is secured by certain pledge agreements and other collateral. The Company also has the right to call the note and 120 days after such notice to the borrower, the note becomes due and payable, including all related accrued interest.

**18. Executive Retirement**

Effective June 30, 2006, an executive of the Company retired. In exchange for a consulting and non-compete agreement with a term of five years, the Company agreed to allow the executive to continue to vest in his unvested share options and restricted shares as of June 30, 2006, in accordance with the original vesting schedules. In accordance with SFAS 123R, the fair values of such unvested awards of \$522 thousand and \$852 thousand, respectively, were included in general and administrative expense during 2006.

**19. Staff Accounting Bulletin No. 108 (SAB 108)**

In September 2006, the SEC released SAB 108. SAB 108 permits the Company to adjust for the cumulative effect of errors relating to prior years previously considered to be immaterial by adjusting the opening balance of retained earnings in the year of adoption. SAB 108 also requires the adjustment of any prior quarterly financial statements within the fiscal year of adoption for the effects of such errors on the quarters when the information is next presented. Such adjustments do not require previously filed reports with the SEC to be amended.

Effective January 1, 2006, the Company adopted SAB 108. In accordance with SAB 108, the Company increased distributions in excess of net income as of January 1, 2006, and its rental revenue and net income for the first three quarters of 2006 for the recognition of straight-line rental revenues and net receivables as further described below. The Company considers these adjustments to be immaterial to prior years on both a qualitative and quantitative basis.

SFAS No. 13 "Accounting for Leases" requires rental income that is fixed and determinable to be recognized on a straight-line basis over the minimum term of the lease. Certain leases executed or acquired between 1998 and 2003 contain rental income provisions that are fixed and determinable yet straight line revenue recognition in accordance with SFAS No. 13 was not applied. Accordingly, the implementation of SAB 108 corrects the revenue recognition related to such leases. The cumulative effect of implementing SAB 108 is to increase shareholders' equity as of January 1, 2006 by \$7.7 million. The first, second and third quarter 2006 impact of this adjustment is summarized below (dollars in thousands, except per share data):

**20. Conversion of Preferred Interest in EPT Gulf States, LLC**

On September 20, 2004, 100% of the preferred interest in EPT Gulf States, LLC (Gulf States), a subsidiary formed in 2002 for the purpose of acquiring five theatre properties, was converted to 857,145 restricted common shares of the Company. As a result, \$15 million of minority interest in Gulf States was converted to common shares and

**ENTERTAINMENT PROPERTIES TRUST**  
**Notes to Consolidated Financial Statements**  
**December 31, 2006, 2005, and 2004**

additional paid-in-capital. Minority interest expense related to the preferred interest in Gulf States was \$.8 million for the year ended December 31, 2004.

**21. Commitments and Contingencies**

As of December 31, 2006, the Company had two theatre development projects under construction for which it has agreed to finance the development costs. These theatres are expected to have a total of 32 screens and their development costs (including land) are expected to be approximately \$28.8 million. Through December 31, 2006, the Company has invested \$12.0 million in these projects (including land), and has commitments to fund approximately \$16.8 million of additional improvements. Development costs are advanced by the Company in periodic draws. If the Company determines that construction is not being completed in accordance with the terms of the development agreement, the Company can discontinue funding construction draws. The Company has agreed to lease the theatres to the operators at pre-determined rates.

**Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**  
None

**Item 9A. Controls and Procedures**

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this report our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our disclosure controls were designed to provide reasonable assurance that the controls and procedures would meet their objectives. Our management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls will prevent all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable assurance of achieving the designed control objectives and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusions of two or more people, or by management override of the control. Because of the inherent limitations in a cost-effective, maturing control system, misstatements due to error or fraud may occur and not be detected.

There have not been any changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter of the fiscal year to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Management's Report on Internal Control Over Financial Reporting**

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control — Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of December 31, 2006.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements, errors or fraud. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of or compliance with the policies or procedures may deteriorate.

Our management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2006 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which is included herein.

**Report of Independent Registered Public Accounting Firm**

The Board of Trustees

Entertainment Properties Trust:

We have audited management's assessment, included in the accompanying *Management's Report on Internal Control Over Financial Reporting*, that Entertainment Properties Trust (the Company) maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and trustees of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that Entertainment Properties Trust maintained effective internal control over financial reporting as of December 31, 2006 is fairly stated, in all material respects, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Also, in our opinion, Entertainment Properties Trust maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Entertainment Properties Trust as of December 31, 2006 and 2005, and the related consolidated statements of income, changes in shareholders' equity, comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2006, and the related financial statement schedules, and our report dated February 27, 2007 expressed an unqualified opinion on those consolidated financial statements and related financial statement schedules.

**KPMG LLP**

Kansas City, Missouri  
February 27, 2007

#### **Item 9B. Other Information**

Effective on February 28, 2007, we entered into employment agreements with David M. Brain, Gregory K. Silvers, Mark A. Peterson and Michael L. Hirons. The Compensation Committee of the Board of Trustees initiated this process to address its concerns that the existing employment agreements lacked consistency among executives. The new agreements replace the existing employment agreements between us and these executives.

Each of the employment agreements has a three year term, with automatic one-year extensions on each anniversary date. The employment agreements generally provide for:

- An original annual base salary of \$505,000 for Mr. Brain, \$365,000 for Mr. Silvers, \$275,000 for Mr. Peterson, and \$175,000 for Mr. Hirons, subject to any increases awarded by the compensation committee. These amounts correspond to the 2007 base salaries approved for Messrs. Brain, Silvers, Peterson and Hirons by the compensation committee;
- An annual incentive bonus in an amount established by the compensation committee pursuant to our Annual Incentive Program;
- A long-term incentive award pursuant to our Long-Term Incentive Plan in an amount established by the compensation committee;
- Severance benefits triggered in the event of death, termination due to disability, termination by the Company without cause, or termination by the executive for good reason. The severance benefits consist of:
  - o the sum of the executive's base salary in effect on the date of termination, the value of the annual incentive bonus under the Annual Incentive Program for the most recently completed year, and the value of the most recent long-term incentive award made under our Long-Term Incentive Plan, times a severance multiple (which is three for Messrs. Brain, Silvers and Peterson and two for Mr. Hirons),
  - o continuation of certain health plan benefits for a period of years equal to the severance multiple, and
  - o vesting of all unvested equity awards.

Good reason is defined as a good faith determination by the employee within 30 days after our receipt of written notice that one of the following events constitute good reason:

- o the assignment of duties materially and adversely inconsistent with the executive's position under the agreement or a material reduction in the executive's office, status, position, title or responsibilities not agreed to by the executive,
- o any material reduction in the executive's base compensation or eligibility under the Annual Incentive Program, eligibility for long-term incentive awards under the Long-Term Incentive Plan, or eligibility under employee benefit plans which is not agreed to by the executive, or, after the occurrence of a change in control, a diminution of the executive's target opportunity under the Annual Incentive Plan, the Long-Term Incentive Plan or any successor plan, or a failure to evaluate executive's performance relative to the target opportunity based upon the same metrics as peer management at the surviving or acquiring company,
- o a material breach of the employment agreement by the Company, its successors or assigns, including any failure to pay executive on a timely basis any amounts to which he is entitled under the agreement, or
- o any requirement that executive be based at an office outside of a 35-mile radius of the current offices of the Company.

A change of control is deemed to have occurred if:

- o incumbent trustees cease for any reason to constitute a majority of the board,
- o any person becomes the beneficial owner of 25% or more of our voting securities, other than an acquisition by an underwriter in an offering of shares by the Company, or a transaction in which 50%

of the voting securities of the surviving corporation is represented by the holders of our voting securities prior to the transaction, no person is the beneficial owner of 25% of the surviving corporation, and at least a majority of the directors of the surviving corporation were incumbent trustees of the Company (a "non-qualifying transaction"), or the acquisition of shares directly from the Company in a transaction approved by a majority of the incumbent trustees,

- o the shareholders approve a merger, consolidation, acquisition, sale of all or substantially all of the Company's assets or properties or similar transaction that requires the approval of our shareholders, other than a non-qualifying transaction,
- o the shareholders approve a complete plan of liquidation or dissolution of the Company,
- o the acquisition of control of the Company by any person, or
- o any transaction or series of transactions resulting in the Company being "closely held" within the meaning of the REIT provisions of the Internal Revenue Code and with respect to which the board has either waived or failed to enforce the "excess share" provisions of our amended and restated declaration of trust.

The employment agreements are filed with this Annual Report on Form 10-K. The descriptions of the foregoing employment agreements are subject to the actual terms and conditions of those agreements, which are incorporated herein by reference.

### **PART III**

#### **Item 10. Directors, Executive Officers and Corporate Governance**

The Company's definitive Proxy Statement for its Annual Meeting of Shareholders to be held on May 9, 2007 (the "Proxy Statement"), contains under the captions "Election of Trustees", "Company Governance", "Executive Officers", and "Section 16(a) Beneficial Ownership Reporting Compliance" the information required by Item 10 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

We have adopted a Code of Business Conduct and Ethics that applies to our Chief Executive Officer, Chief Financial Officer, and all other officers, employees and trustees. The Code may be viewed on our website at [www.eprkc.com](http://www.eprkc.com) and is available in print to any shareholder who requests it.

#### **Item 11. Executive Compensation**

The Proxy Statement contains under the captions "Election of Trustees", "Executive Compensation", "Compensation Committee Report", and "Company Performance" the information required by Item 11 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

#### **Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters**

The Proxy Statement contains under the captions "Share Ownership" and "Equity Compensation Plan Information" the information required by Item 12 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

#### **Item 13. Certain Relationships and Related Transactions, and Director Independence**

The Proxy Statement contains under the caption "Transactions Between the Company and Trustees, Officers or their Affiliates" the information required by Item 13 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

#### **Item 14. Principal Accountant Fees and Services**

The Proxy Statement contains under the caption "Ratification of Appointment of Independent Registered Public Accounting Firm" the information required by Item 14 of this Annual Report on Form 10-K, which information is incorporated herein by this reference.

## **PART IV**

### **Item 15. Exhibits and Financial Statement Schedules**

(1) *Financial Statements:*

Report of Independent Registered Public Accounting Firm  
Consolidated Balance Sheets as of December 31, 2006 and 2005  
Consolidated Statements of Income for the years ended December 31, 2006, 2005 and 2004  
Consolidated Statements of Changes in Shareholders' Equity for the years ended December 31, 2006, 2005 and 2004  
Consolidated Statements of Comprehensive Income for the years ended December 31, 2006, 2005 and 2004  
Consolidated Statements of Cash Flows for the years ended December 31, 2006, 2005, and 2004.  
Notes to Consolidated Financial Statements

(2) *Financial Statement Schedules:*

Schedule II — Valuation and Qualifying Accounts  
Schedule III — Real Estate and Accumulated Depreciation

(3) *Exhibits*

The exhibits listed in the Exhibit Index immediately preceding the exhibits are filed as part of this Annual Report on Form 10-K or incorporated by reference as indicated below.

## SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

# CERTIFICATION

I certify that:

1. I have reviewed this annual report on Form 10-K of Entertainment Properties Trust;
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this annual report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a — 15(f) and 15d — 15(f)) for the registrant and we have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this annual report any change in the registrant's internal control over financial reporting that occurred during the registrant's fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of trustees:
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
